REFRIGERANT STORAGE PRACTICES

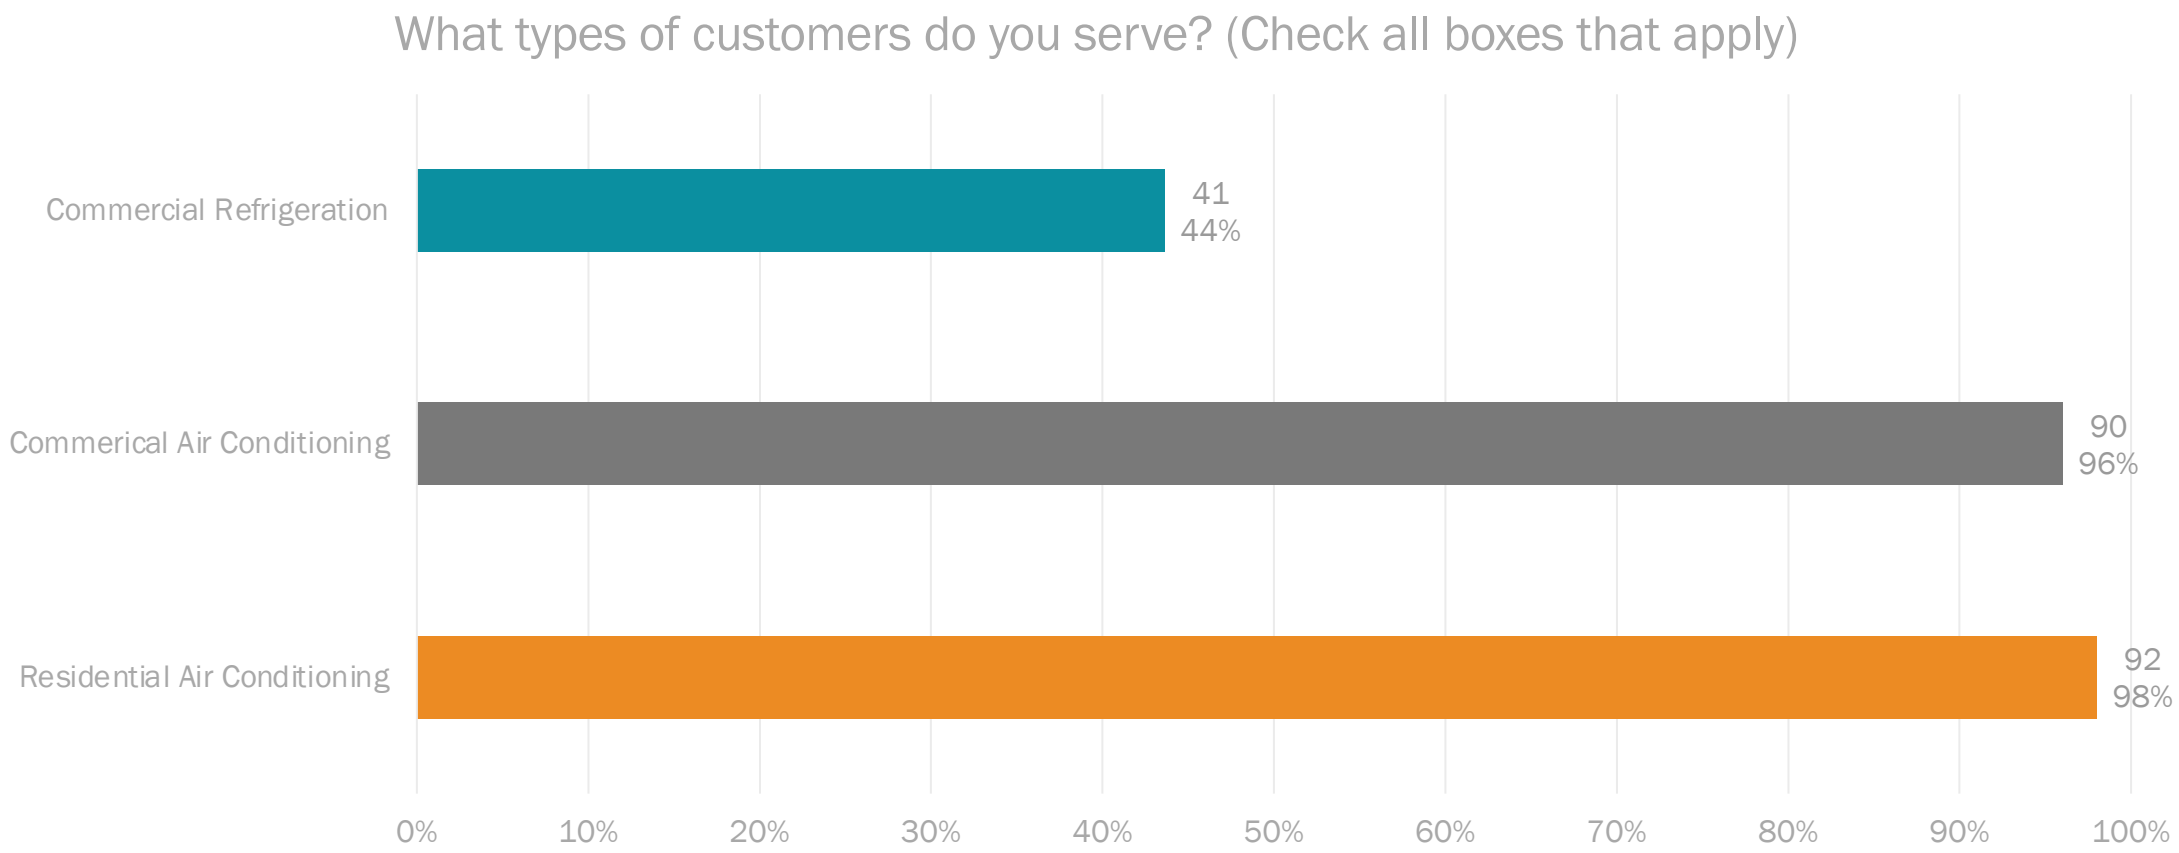
METHODOLOGY

- N = 93 companies
- CI: 9.09%
- CL: 95%
- Methodology: Online survey sent to all HARDI wholesale-distributor member executives/primary contacts. Contact information collected to ensure no duplicate answers.

DEMOGRAPHICS

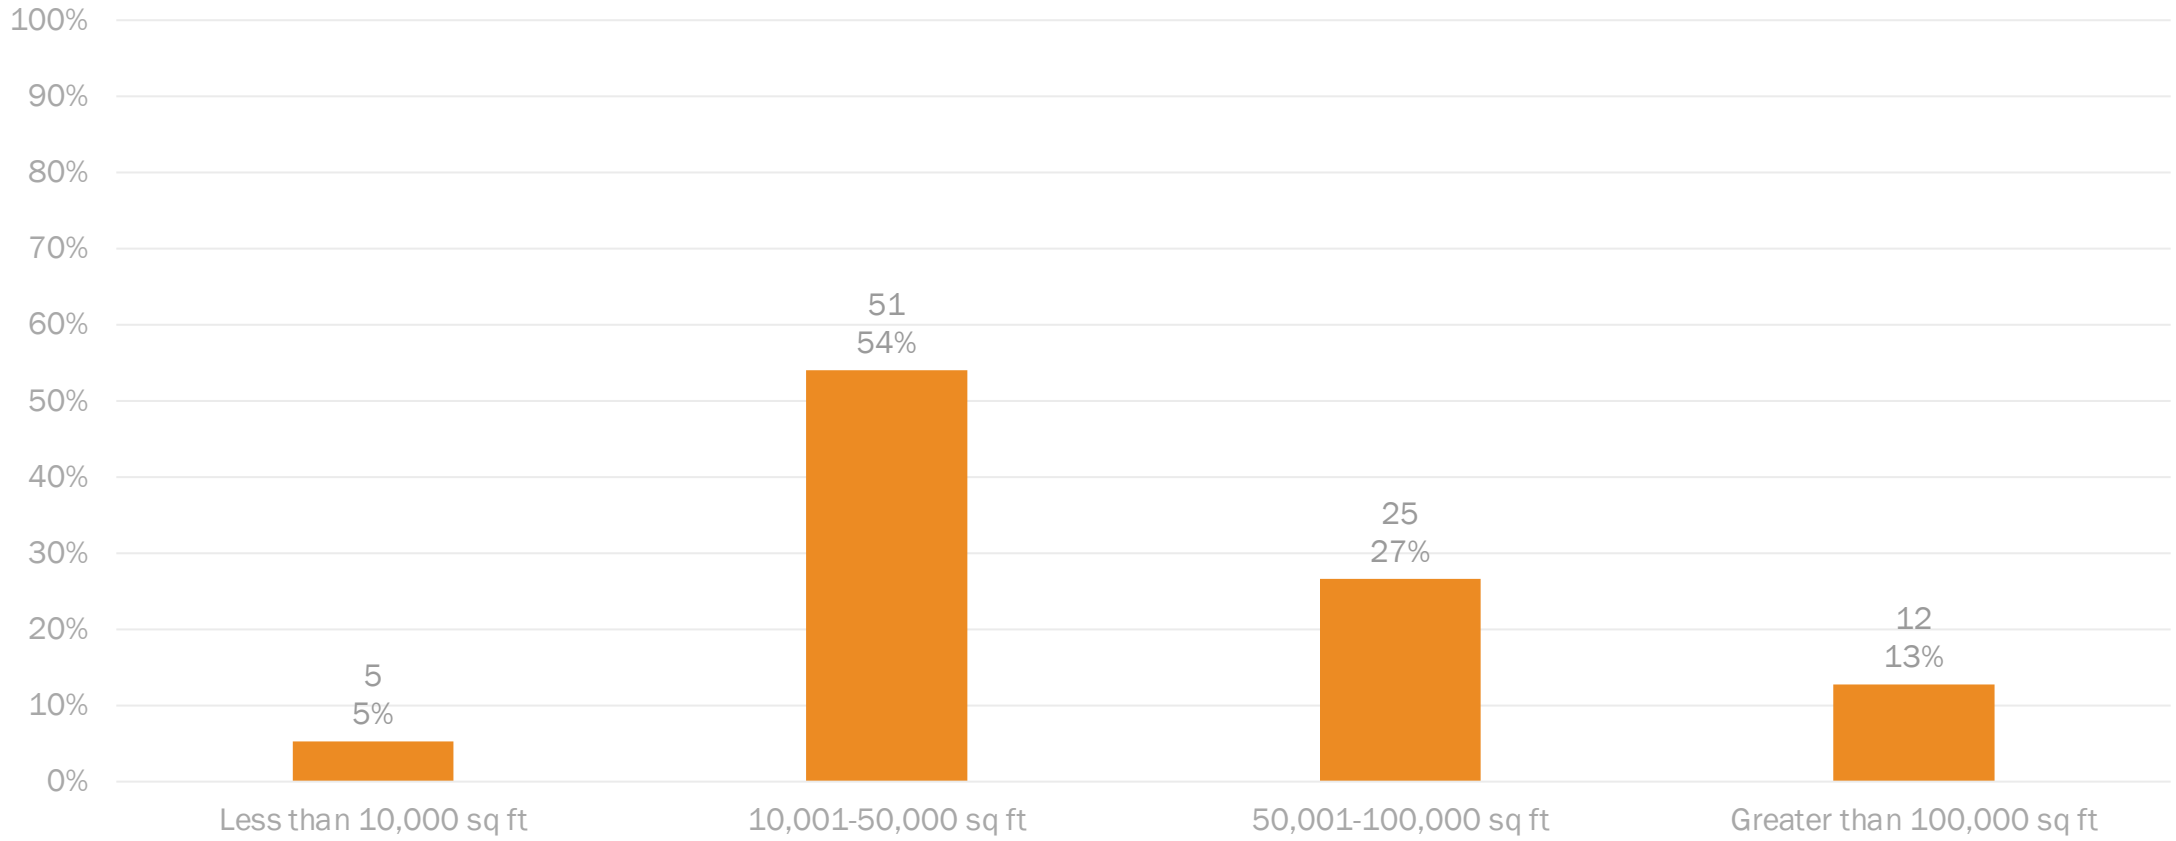
- These 93 companies represent 1,134 branches
  - 22 are single location businesses
  - 40 operate with all locations in a single state
  - 28 operate in 2 or 3 states
  - 25 operate in 4 or more states

SECTORS SERVED



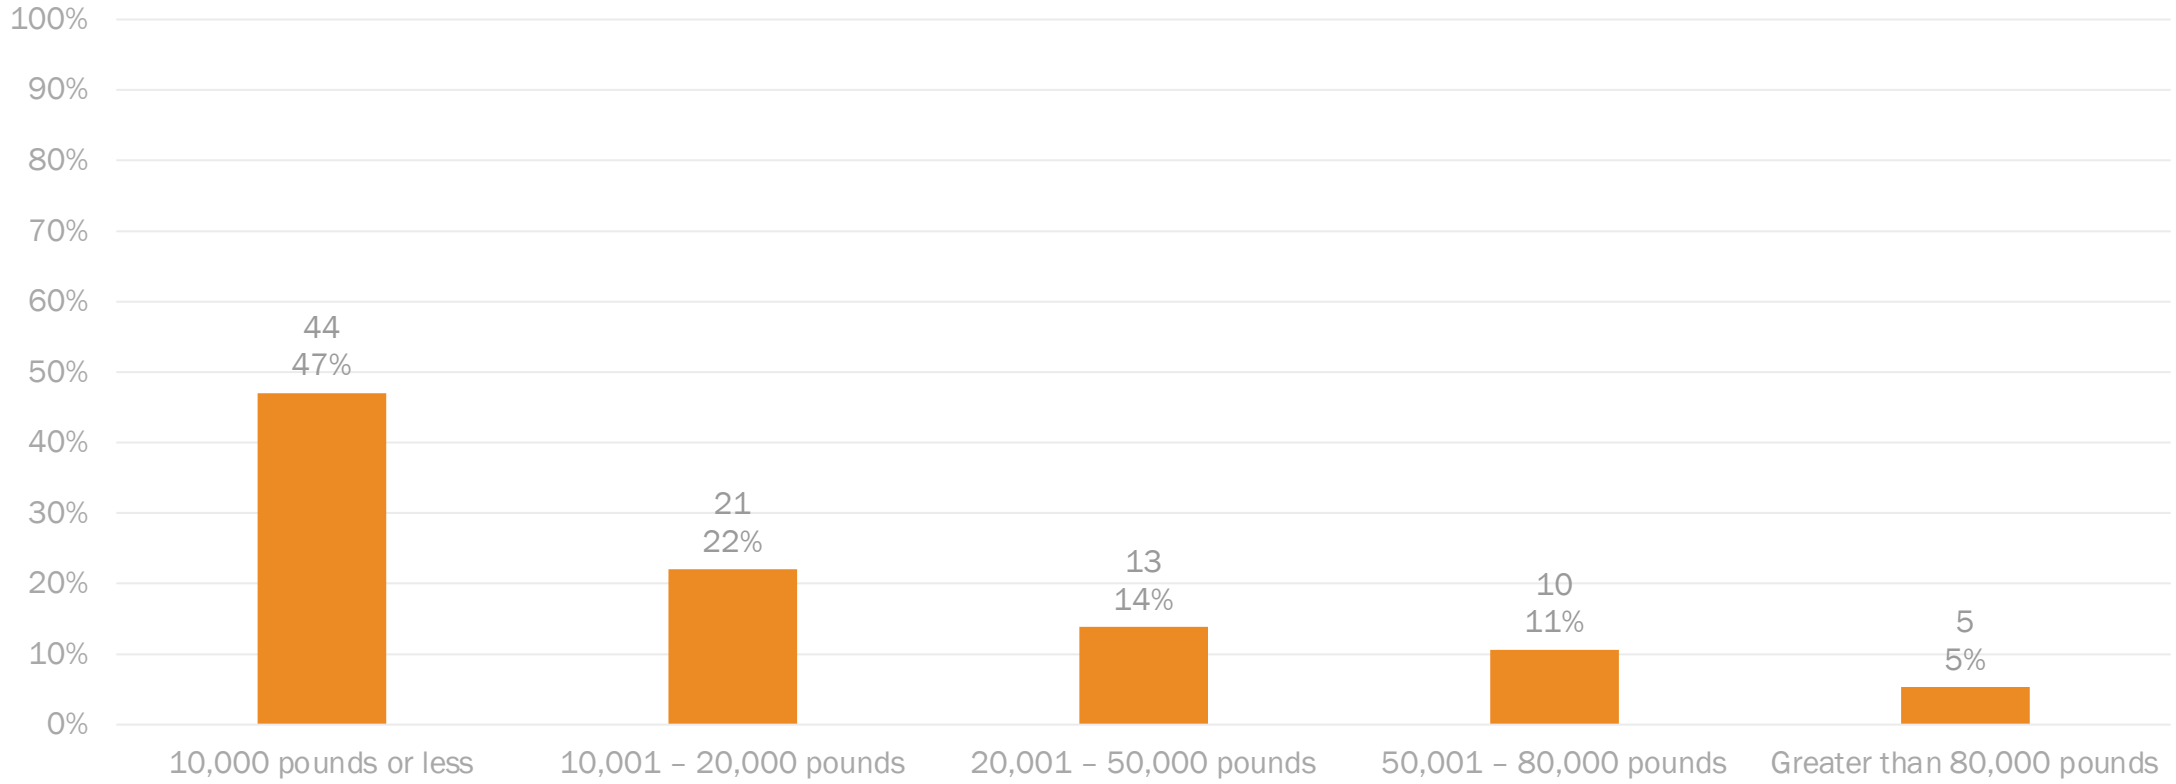
WAREHOUSE SIZE

What is the size of the storage warehouse at your facility?



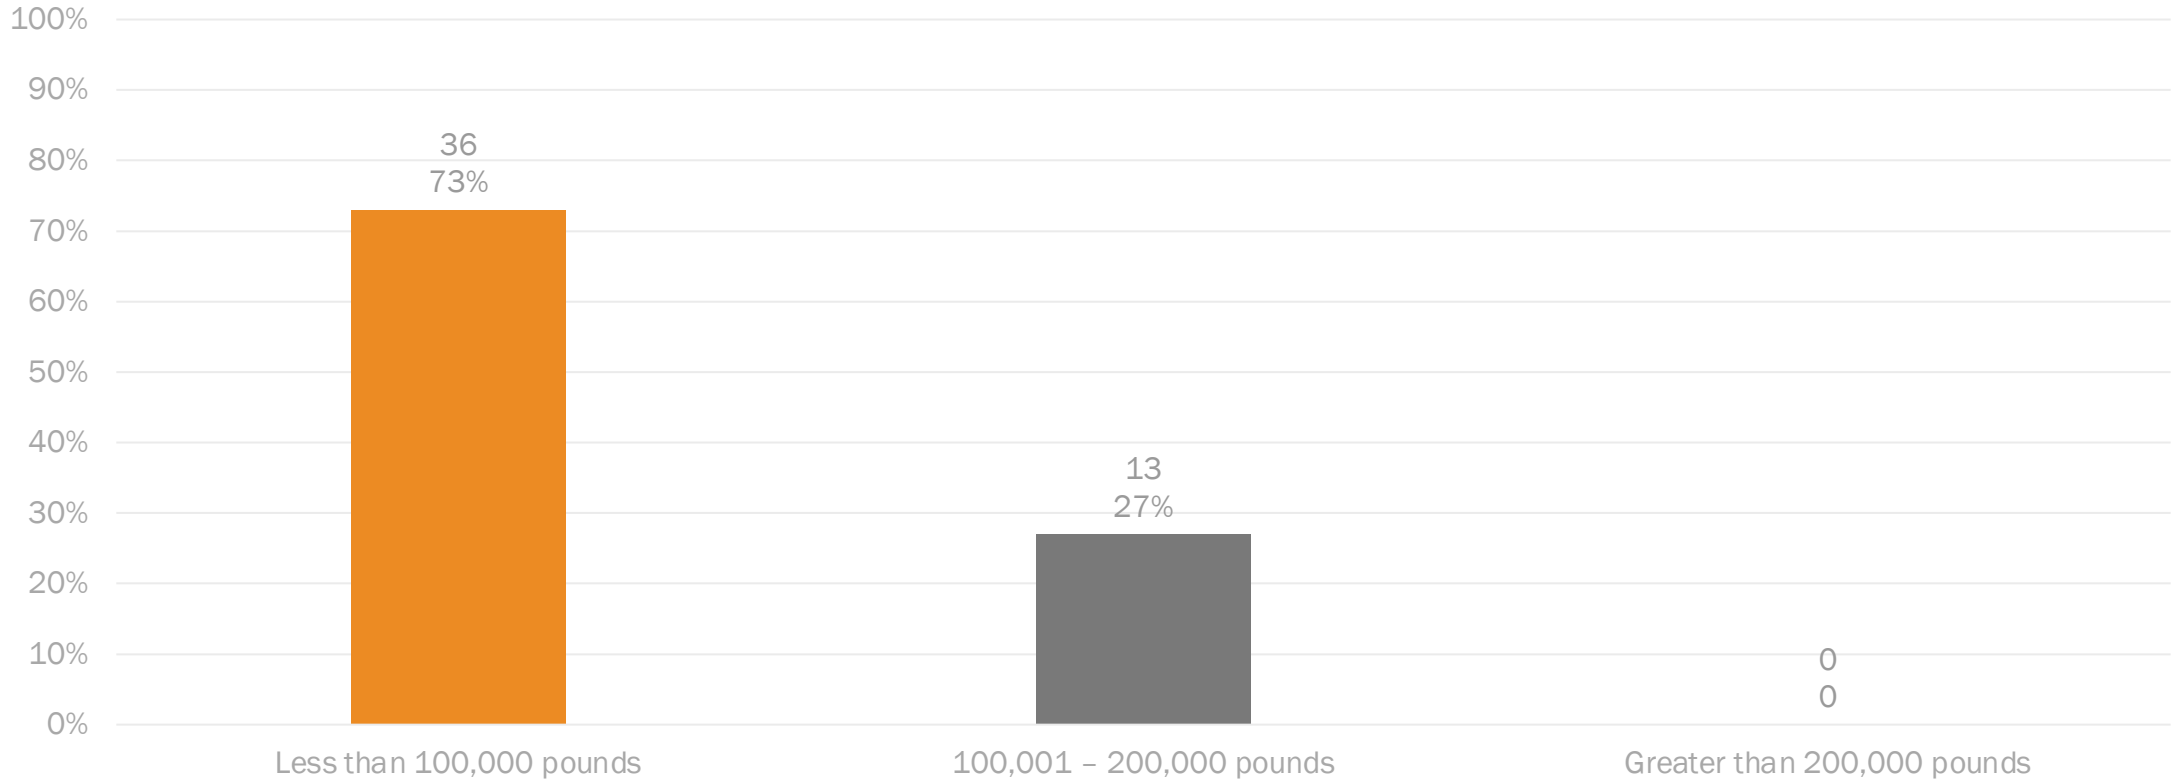
REFRIGERANT STORED

How many pounds of refrigerant (in cylinders) do you store in a single warehouse or branch location at the peak of cooling season?



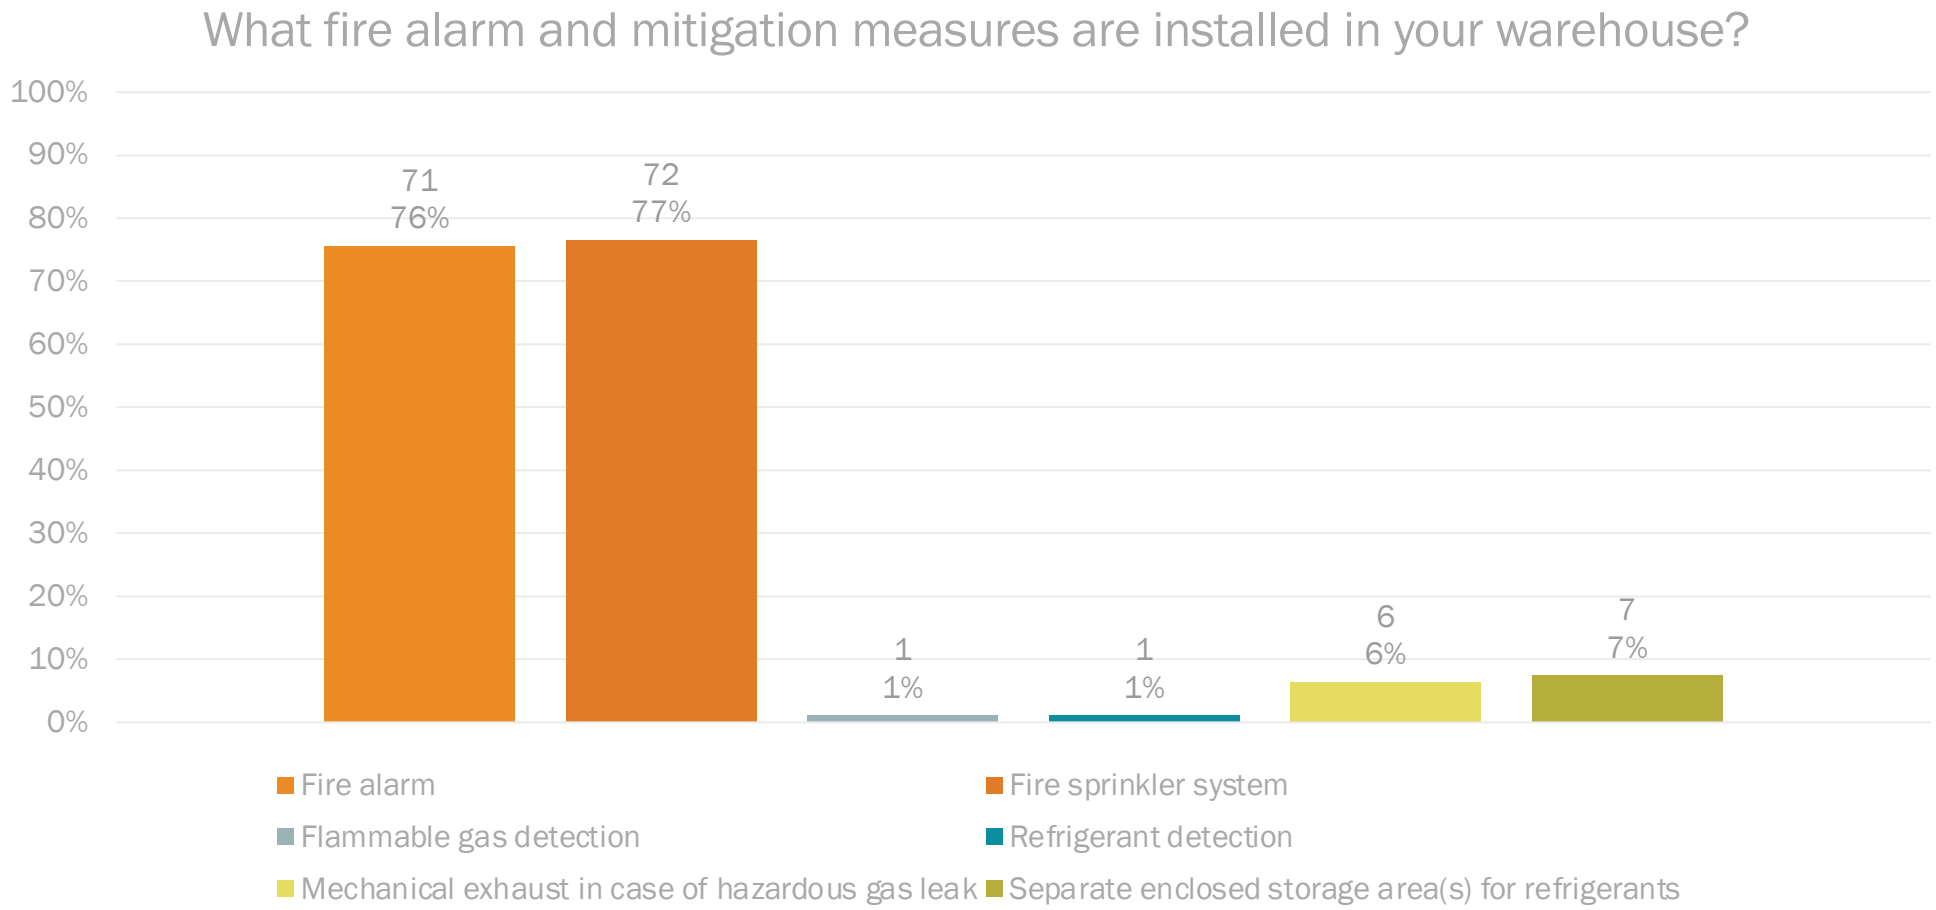
REGIONAL DISTRIBUTION CENTERS

If you have regional distribution centers servicing multiple branches, how many pounds of refrigerant do you store at the peak of cooling season?



*49 total regional distribution centers (52% of total respondents)

FIRE PROTECTION



Additional Responses:

- Fire extinguishers
- Not all facilities are alarmed and sprinkled
- Separate areas for refrigerant
- Varies by location (left other options blank)
