

Hardware Cloth VC - Black Vinyl Coated

Description -

- Small mesh openings
- Galvanizing stiffens the mesh
- Light weight, small gauge meshes
- GAW mesh is coated with black PVC
- Welded mesh has uniformly spaced wires
- Black PVC is UV stabilized for longer life
- Zinc coating applied after the mesh has been welded
- Wire mesh is thoroughly protected against rust and corrosion
- Rugged vinyl coating is tightly bonded to underlying GAW mesh

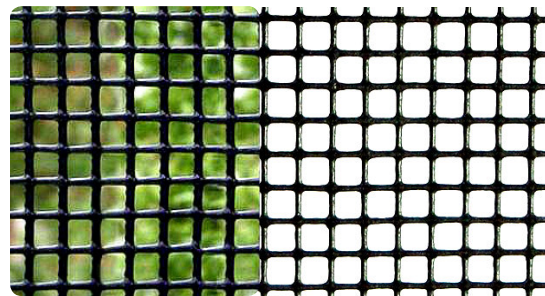

1/2"x1/2"

Benefits -

- Easy to work with - easily shaped and bent
- Attractive - unobtrusive black coating blends with background
- Longer lasting - superior double protection with both vinyl and galvanizing

Uses -

- Bee keeping
- Gutter guard
- Soffit screens
- Craft projects
- Window guards
- Small animal cages
- Tree trunk protection
- Nuisance wildlife control
- Gopher, groundhog barriers
