

REFURBISHING PROCESS

repairing reusable shippers reduces costs

Valley Box

Start with a reusable box designed to collapse which
★ limits storage space needs.

Customer

The customer places their part into the reusable box & ships it to the end user.

End user

The end user removes the part then collapses the box to
★ minimize return shipping costs.

Customer

When the box is in need of repair refurbishing can take place.

 REUSE CONTAINER FOR MANY YEARS

 SHORT TURN AROUND TIME FOR REPAIRS

 MORE COST EFFECTIVE TO REPAIR THAN TO REPLACE

THE 50% RULE:
Decide to repair if costs are
Less than **50%** of a brand
NEW BOX

Investing in a depreciable reusable shipper can be very cost effective.
