

Cloud vs. On-Premises

Determining the Best Solution for Your Unique Business Needs

When you're considering whether a cloud, on-premises, or hybrid communications solution is right for your business, you need to understand what each option has to offer, and how those options align with your business requirements. Check your business' requirements off the lists below to start learning which solution is best for you.

Cloud

Check the cloud features below that your business requires.

- ☐ Your business prefers an OPEX Model.
- ☐ You want to stay on the leading edge of technology.
- ☐ You need the flexibility to add capabilities quickly.
- ☐ Your growth requires the ability to scale up quickly.
- ☐ You want to reduce IT resources needed.
- ☐ You have strong remote worker needs.
- ☐ You have multiple locations to connect.

On-Premises

Check the on-premises features below that your business requires.

- ☐ Your business prefers a CAPEX purchase model.
- ☐ You want more stable, slower change.
- ☐ You require full-control of the system.
- ☐ You need complete, local ownership of data.
- ☐ You have significant existing communications investments to keep.
- ☐ You have custom applications or integrations built.

To dive deeper into this choice, contact Vertical to tailor the best solution to you.
