

# STA WIZARDS TAYLOUR

The STA Wizards have been a team to reckon with all season! Starting the season out strong the Wizards were a team full of energy and love for the game of basketball. With some practices under their belt they strengthened some core fundamentals and prided themselves on getting better each day. We have Nick who brings tenacity on the boards and great hard nose defense. Then there's Tyler our teams floor general who loves to direct traffic and excels in those gut-wrenching moments. We have the duo Bo and Will who will give their all every play and hustle after every loose ball and get every 50-50 ball. We have Griffin and Aditya who both give the team everything they have when on the court. You will never see these two not focused on the play ahead. Cian who anchors our defensive from the middle. We have Paul who has enough energy for everyone on the team, while not shying away from getting the next team bucket. Grady is the most eager to get involved and lead his team both on and off the court. Finally, we have Caleb who is our biggest team player who is willing to take on whatever task the team needs. Together these guys are making great strides as one of the best teams in the league. Keep your eyes out for these guys because they are coming for you!

Bethesda Bruins is a team with so much talent and diversity. A bunch of great kids who are easy to coach and fun to be around. From day one u can feel positive vibes and great team chemistry. Yuga is the brain of the team. Great point guard that can see the game by making the right play 99%of the time on defense and on offense. Tyler is another smart kid that understands what he needs to do to be efficient on offense. Liam is the energy guy who plays hard on both ends of the court. The type of player every time needs in his roster. Thomas is another good player that knows what to do when on the court. He has a great potentiel and you can tell when he is on the court cause he is east to find with a pass. Won't be afraid to shoot that ball. Finn is my guy. # MARCUS 3RD GREEN

Rex was an incredible asset to the team and one of the best communicators on our team. Rex is the type of player who is the glue that helps keep the team together, a fierce post player and awesome rebounder.

Nikki I'm really excited about Nikki and what he did for us this year his defense became an incredible asset to our team. I think that he has the length and the tenacity to be a very good player. I love his shot and just really excited about the way he progressed and fought for more playing time this year.

Leo is an incredibly gifted athlete and he's also a very smart athlete. We can depend on Leo, on the defensive side, to check the opposing team's best offensive player. Leo does an incredible job of driving the ball to the basket too!

Everett's got such an upside because he learns very quickly. He accepted his role on the team as a facilitator, but he still learned and watched others. Everett is probably one of our best screen setters on the team and one of our best nonverbal communicators on the court.

Isaac's quite talent. We really liked what he did on the offensive side especially when he decided to put his head down and go to the hoop or when he decided to grab some rebounds and keep the ball above his head. He's got the length to be a very good player and we are looking forward to seeing what happens to him in the future.

Cole, he does a little bit of everything well! We is a very good passer, has an excellent long range shot and he has speed! He's got the speed to guard any opposing team's point guard with no problem. Love his big heart! A very good and emerging all-around player!

Jackson, in a number of games, was our MVP because he made the right plays at the right times. He's got a very smooth jumper - that can only get better. Jackson knows how to use his body on to his advantage on both offensive and defensive ends. He runs well and has got great stamina and that's important when you're playing full court most of the game. I truly enjoyed coaching Jackson.

David would show us something new every week. One week it was his post-game and the next it was his passing. Then another game it would be his shot and shot selection. David has a tremendous upside with his height, length and diversity of skills.

Boo, was our MVP in a meaningful number of games. His ability to trap at the right time, get the steal and get us in transition. Or grab a rebound and start the break. Boo is well-versed in all aspects of the game. He is quiet, but he is a leader - the other players see how hard he plays and the follow suit!

Eitan, what a fierce and humble competitor. Eitan, despite his size was often called on to guard the opposing teams biggest player. He did so with honor and never complained. He is so athletic, he heart is so big. I am so proud of how he learned post defense and post play and his upside is awesome, because his attitude is incredible.

# TYRIKE DEAL DEVILS

We are the Devils we bring the flame. It starts with our lead dog Max. His intensity is unmatched. He brings it every game and leaves it all on the floor after each game. Next our big man Ben if he wants the ball better believe he'll get it. His hustle is like no other. Next comes our silent but deadly scorer Rowan. His game is so smooth you would realize late that he scored five straight times on you. Our energy, soul and heart is Desi. He brings it from the tip to the buzzer. Whatever you need he can do it. Next are Idan and Issac. Two slashers that you must stay in front of or they'll shake and bake you quick. Then comes Ian and Graham. The splash brothers literally. Meaning put a hand up on defense or you will most definitely pay. Can't forget Owen. He literally spreads the floor with the best of them with footwork like no other. Don't get left in the dust.. And last but not least our big man Felix. He controls the paint so much you'd think he lives there so please proceed with caution. We here , opponents ain't really ready for us!
