

Go to Excel > Preferences

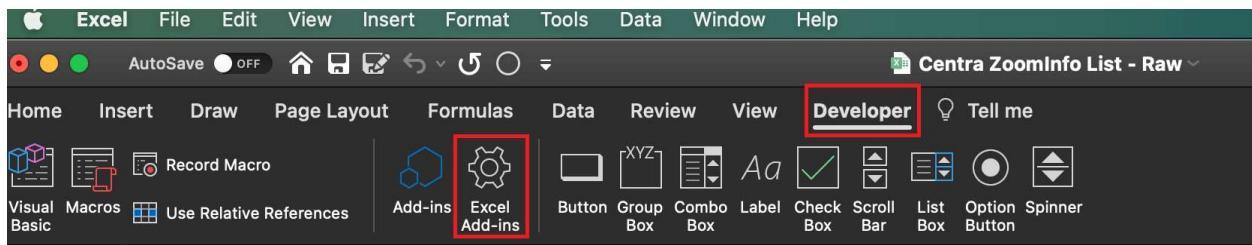

Click on Security and then enable 'Trust access to the VBA project object model'

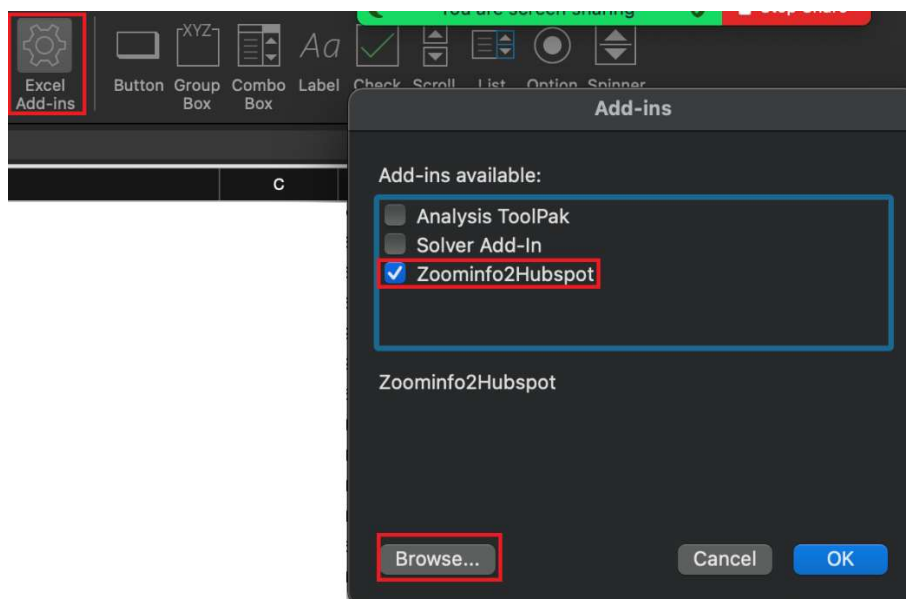

Go back a screen and on the Preferences, go to 'Ribbon & Toolbar' and on the right side, check the box for 'Developer'

Go to the Developer tab and click 'Excel Add-ins'

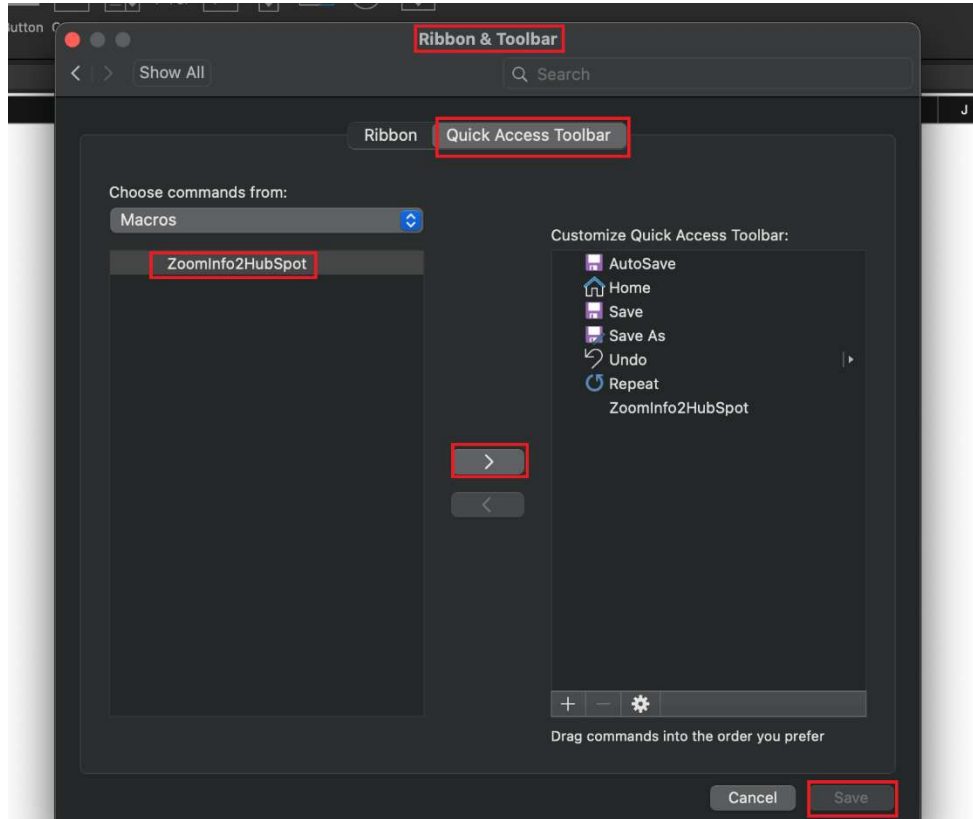

Click Browse to find the file and make sure it's checked:

Go back to the 'Preferences' and 'Ribbon & Toolbars'

Click 'Quick Access Toolbar' at the top, select the Zoom and move it to the right side and save.

It is now added to your quickaccess toolbar:
