

BuyerQuest and NetSuite

Extend the Value of your NetSuite System

BuyerQuest enhances NetSuite through a next generation Procure-to-Pay (P2P) experience. Our software complements NetSuite and streamlines the buying process, increases user adoption, drives contract compliance, and saves money. The BuyerQuest Marketplace seamlessly connects to NetSuite to deliver a simple, integrated buying process.

Increase User Adoption

Higher Contract Compliance

Reduce Costs

Two Great Ways BuyerQuest Solutions Supplement NetSuite

	Private Marketplace	Enterprise P2P
Goods & Services Selection		
RFQ & Quote Creation (Sourcing)		
Requisition Creation and Approval	ORACLE NETSUITE	
Purchase Order Creation	ORACLE NETSUITE	
AP Invoice Automation & Payment	ORACLE NETSUITE	
Master System of Record	ORACLE NETSUITE	ORACLE NETSUITE
Typical Time to Go Live	1-3 Months	4-6 Months

With BuyerQuest and NetSuite integrated, users seamlessly move from the requisition to a user-friendly, e-commerce like shopping interface of on-contract products where they are quickly able to find the products they need to complete their work. Items selected in the shopping cart populate the appropriate order in NetSuite for continued processing.

For those organizations looking to upgrade their entire procure-to-pay process, BuyerQuest also offers a full e-procurement suite that can still be integrated with NetSuite to leverage its contract capabilities.

NetSuite Partnerships
