

# BuyerQuest Pay

## Create a Seamless P2P Process

Payments are the last mile of the procure to pay process and are manual, resource-intensive, and prone to errors or fraud. BuyerQuest Pay, the newest module from BuyerQuest, seamlessly integrates AP Invoice Automation and payments for direct or indirect orders.

### Flexible

BuyerQuest Pay supports multiple payment options, including virtual cards

### Integrated

Able to deliver payment updates and information to ERP systems when required

### Secure

Built-in approval controls, remittance tracking, and auditing in a single system

Built on the industry-leading, user-friendly BuyerQuest Procure-to-Pay platform, BuyerQuest Pay delivers an easy to use technology that is sure to drive efficiencies for your AP Team and provide cost savings to your organization.

Save time and resources by automating the payments process, expanding control of your cash flow, and taking advantage of virtual card rebate opportunities with BuyerQuest Pay.

Customer Benefits	Supplier Benefits
AP Monetization through Rebates	Control Method and Time of Payment
Full P2P Process Automation	Engage with Customers
Free Resources for Strategic Work	Eliminate Paper Processes
Reduce Fraud	Enhance Payment Efficiency
