

Axcient Referral Program

Terms and Conditions

Any Axcient partner in good financial standing is eligible to submit referrals beginning February 1, 2022.

The referring partner may not be the same as or affiliated with the referred partner. Affiliation includes both business ties and personal relationships (relative, spouse, etc.)

All referrals must be submitted into the referral form at {link}.

Where required, the referring partner is responsible for obtaining permission from the MSP to be entered as a referral and to be contacted by Axcient.

Specifically, by submitting a referral, a referring company confirms that it has the right to supply personal data (contact name, company name, company email, company telephone number, company address) to Axcient, and the referring company will not breach applicable data protection laws. Where the referring company is providing personal data to Axcient about a third party, they confirm they have the referred company's authority and express permission to provide us with their personal data. Neither Axcient nor the referring company will by our act or omission put the other in breach of the applicable data protection laws.

Axcient will issue a one time payment to the referring partner's business based on the referral's initial monthly recurring revenue (MRR) commitment level.

- Referred partner MRR of \$100-\$250 will result in a one time \$250 payment to the referring organization
- Referred partner MRR of \$250-\$500 will result in a one time \$500 payment to the referring organization
- Referred partner MRR of \$500 and greater will result in a one time \$1,000 payment to the referring organization

For each successful referral, Axcient will issue a one-time payment to the referring partner organization within approximately 90 days following the date the referred MSP makes a purchase of at least \$100 in monthly recurring revenue. Payment will be issued to the referring partner's organization—not to an individual—as entered on the referral form. Full legal business names and addresses are required on the form, to ensure payment reaches and can be processed by the referring organization.

FOR A REFERRAL TO BE ACCEPTED, IT MUST:

- Be the first submitted for a managed service provider not already an active opportunity within Axcient's systems
- Result in a minimum \$100/month subscription purchase from Axcient within 3 months of the date of referral

No retroactive referrals will be accepted on business that is already identified by Axcient as an existing opportunity or a current customer.

The Axcient referral program is offered at Axcient's sole discretion and is subject to change or termination at any time without notice.
