

Friedrich FreshAire APWR1

FreshAire Purifier by iWave for use with Friedrich Vert-I-Pak, and VRP 12-36K

The Friedrich APWR1 (iWave-R) FreshAire Purifier by [iWave](#) is the world's first self-cleaning, no maintenance, needlepoint bi-polar ionization generator designed specifically for treating air in residential duct A/C systems. As the air flows past the APWR1, positive and negative ions actively purify the supply air, killing mold, bacteria, and viruses in the coil and living space. The ionization process also reduces allergens, smoke and static electricity, as well as controlling odors (cooking, pet, VOCs) and other particles (no more sunbeams) in the air without creating ozone or any harmful byproducts.

APWR1 by [iWave Air](#) has been tested and certified for use with Friedrich Vert-I-Pak, and VRP 12-36K.
