DYNTEK ISN'T YOUR AVERAGE CISCO GOLD PARTNER

✓ Deep engineering expertise with Cisco's products and architectures – from endpoints to data center and cloud

✓ Specializations and rock star pre-sales engineering skills that make us the perfect long-term partner

✓ Strong capabilities in adjacent technologies that enable us to create faster, **more complete** solutions and take on your most complex projects
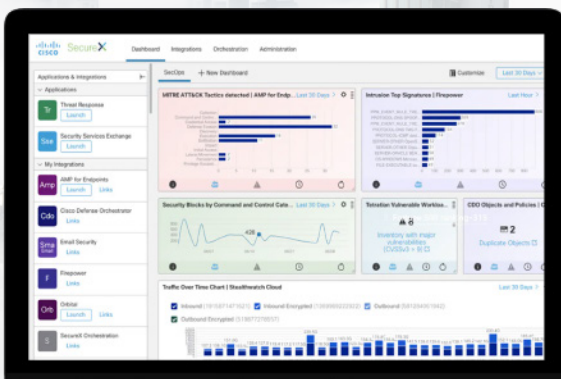

✓ Dedicated teams for enterprise, healthcare, hospitality, K12, education, and public sector

AMAZING THINGS HAPPEN WITH CISCO AND DYNTEK **SIMPLIFY YOUR SECURITY EXPERIENCE WITH SECUREX**

DO YOU FEEL LOST WITH CYBERSECURITY?

DynTek offers a host of services that can help you **simplify your security now** without having to wait for Cisco or SecureX integrations.

Reduce complexity
A single, customizable dashboard for your Cisco and 3rd party security investments

Become more efficient
Automate security tasks with prebuilt workflows or easily build your own

Improve visibility
Prioritize alerts, identify gaps in security coverage, and simplify security investigations

Add new capabilities
Access to new products and capabilities are literally just a click away

AMAZING THINGS HAPPEN WITH CISCO AND DYNTEK
CONNECT and PROTECT anything your network touches or serves

Build an automated, intelligent network

- Bridge the gap between what you need and what your network delivers with IBN solutions
- Leverage software entitlements like Cisco DNA Center to automate and modernize network management
- Simplify enterprise networking and mobile device management with Cisco Meraki's cloud-powered, OpEx-based solutions

Make IoT a reality for your organization

- *Digital-ready infrastructure, sensors, and endpoints to support your IoT vision*
- *Secure, smart buildings and facilities*
- *Smart cities, transportation, and utilities for the public sector*
- *Capabilities ranging from design all the way through implementation and support*
