

The first smart investment operations and accounting system

The smart system that keeps getting smarter.

Actionable Monitors

Measure efficiency and present relevant data and activities in real-time. Quickly drill-down to details and take action where necessary.

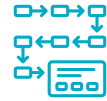

Artificial Intelligence

Learns from user behavior, providing feedback and suggesting more optimal workflows over time. Gets smarter the more you use it.

Predictive Tools

Navigates you quickly to the specific function you need, and pre-emptively fill in commonly-used fields or values based on prior history.

Workflow Automation

Leverages Intelligent Process Automation to reduce steps and streamline manual, repetitive operational and accounting processes.

COMPREHENSIVE

Manage all asset types, industry models and operational functions.

SCALABLE

Cloud-based architecture provides unlimited capacity for growth.

FLEXIBLE

Add or upgrade components quickly and easily.

AGILE

Adapt quickly to changing market, business and geographic demands.

“By 2020, embedded AI will become a key differentiating factor in finance systems evaluations, and vendors with this capability will be able to highlight greater functional advantages.”

SMARTER WITH GARTNER, “HOW WILL AI TRANSFORM FINANCIAL MANAGEMENT APPLICATIONS”, FEBRUARY 2, 2018

Only SS&C Singularity combines SS&C’s comprehensive global financial expertise with today’s intelligent automation technology.

Cut Operating Costs

Streamline processes, eliminate IT infrastructure, reduce operational staffing requirements.

Reduce Operational and Regulatory Risk

Support for all global compliance requirements.

Increase Productivity

Intelligent automation accelerates processes and raises productivity to new levels.

Secure and Reliable Access to Data

Hosting facilities meet highest industry security standards and audit certifications.
