

LIVINGSTONE GROUP APPOINTS GIOVANNI SAVASTANO AS COO

Reading, UK – June 2021 – [Livingstone Group](#), the leading independent, global provider of software and cloud portfolio management and optimization services, today announced the appointment of Giovanni Savastano as Chief Operations Officer. Giovanni will oversee the company's delivery operations, client services for its global customer base, and will work to harness the company's organic growth as it looks to scale.

In his role of COO, Giovanni will be responsible for the end-to-end journey of Livingstone Group's clients from the initial sales process right through to project delivery and completion. In addition, he will be focused on consolidating Livingstone Group's departments and investing in the organization's proprietary technological assets and intellectual property to drive the company's value.

"We are delighted to welcome Giovanni to the Livingstone team," **said Chris Allen, CEO at Livingstone Group**. "Giovanni's background and expertise in scaling organizations will be invaluable to us as we continue on an upward growth trajectory. His experience across such a wide variety of industries is also perfectly matched to our customers' diversity, who hail from industries as far and wide as retail, manufacturing and national government."

Prior to Livingstone Group, Giovanni worked in leadership, management and consultancy roles across the technology, product, operation, and services functions in organizations covering a multitude of industries including telco, finance, and retail. Organizations he has worked for include Sainsbury's, Ikea, Smart Focus, DXI and Deloitte.

"Livingstone Group is a leader in its field and its process of working with customers to extract maximum value out of their cloud and software investments has proven successful time and time again," **said Giovanni Savastano**. "I am thrilled to be joining Livingstone and look forward to building on its strong, established foundations and harnessing the company's organic growth as it looks to scale."
