Keep your business growing

SAP Business ByDesign gives fast-growing businesses the platform to turn growth potential into real results. This cloud-based ERP solution connects every function across your company to time-tested best practices and in-depth analytics. You'll get the foundation to scale and compete without the complexity and cost, so you can **grow your business your way**.

SAP Business ByDesign has everything a fast-growing business needs—an end-to-end solution, powered by proven SAP business processes and delivered quickly in an average implementation time of 8-12 weeks. A proven track-record of ongoing investment, innovation and delivery in the cloud.

Built to scale— this dynamic, configurable solution will drive growth today and keep growing with your business while you get full transparency into every aspect of your operations.

Unify all core functions in an end-to-end business suite

SAP Business ByDesign delivers pre-built processes for everything from finance and sales to product management and purchasing on a single, unified solution, so you can put 40 years of SAP business process experience to work for your organization and focus on what you do best.

A natively mobile, cloud-based solution with an easy-to-use user experience that fits the way your employees want to work. Every part of the web-based solution is responsive—adapting to

whatever mobile devices employees use to get their work done—and we offer targeted apps designed specifically for day-to-day tasks like time and expense reporting, project management and analytics.

Have a clear understanding of what you're paying with SAP Business ByDesign knowing what your costs are going to be for the duration of your contract and building your budget accordingly.

No surprises and no extra costs.

Built For Growth

Insightful

Continuous Innovation

“With SAP Business ByDesign, we move toward **one blueprint on how to do business across the company**, equipping people to focus on what they do best and with the data to make the best possible decisions.”

Keith Robinson, Finance Transformation Program Director.

Built to Grow with your Company

With customers in more than 100 countries and globalization and translation toolkits built on local best practices, SAP Business ByDesign provides the agility to adapt to tax requirements, languages, and currencies for quick entry to new markets.

SAP Business ByDesign scales from 20 to 10,000 users and allows you to easily re-configure processes, so you can add more employees as business grows.

Connect yourself to the systems you use today and what you may need next, featuring APIs that allow quick connections to custom solutions you've built as well as pre-built integrations with Office 365, Concur, SAP Analytics Cloud and SAP SuccessFactors.

SAP Business ByDesign is extensible and adaptable to meet your business needs. You'll keep data moving across your company even as your company grows and changes.

Bring Transparency to the Business

Because SAP Business ByDesign builds analytics into every process, you can share and see data across functions and departments and arm your team with the more accurate, timely and complete insight they need to make informed, in-the-moment decisions.

Give users an easy, clear view of the metrics that matter for their specific roles, showing issues and opportunities that require attention right

from their dashboards, so they can quickly see what needs to be done and take action.

SAP Business ByDesign features more than 500 standard reports, dozens of pre-built KPIs and Excel integration—all right out of the box—so you can bring transparency to the business immediately and give your team the tools they need to easily analyze and share data.

Continuous Innovation

“With SAP Business ByDesign, I can **always access all the key information I need** without having to ask my employees for help. That's an invaluable advantage, particularly when I'm traveling on business.”

Wolf Münchmeyer, CEO,

Be always updated

SAP Business ByDesign brings more than 10 years of experience running ERP in the cloud, so you can be confident you're getting a stable solution with a proven track record of delivering for organizations like yours.

By consistently delivering new features and processes—SAP Business ByDesign publishes a development roadmap so you know exactly what's coming next, and delivers quarterly product updates to get as it becomes available.

SAP Business ByDesign offers a range of configurations, extensions, adaptations and integrations that give you the flexibility to adapt and extend the solution to fit what you need now, while remaining in your standard service level agreement (SLA), so you can predict and manage pricing as well as get the latest updates with each quarterly release.
