

Visitu Mobile App

The **Visitu Mobile App** beta version is now available for download at the Apple App store here: <https://apple.co/2kRSw6A> as well as the Google Play store here: <https://bit.ly/2IVy597> and looks like this:

Apple App Store:

Google Play Store:

NOTE: You have to already be registered as a user within your school's/business' Visitu location to be able to utilize this app and any registered user can download the app for use at a Visitu location (i.e. Parents, Employees, Students, Staff, etc.).

After downloading and opening the app, you'll see a screen with two options that look like this:

4:37 43%

Welcome to Visitu Mobile

Please Sign In Below

Phone Number Email Address

Phone Number

Send Verification Code

III O <

This screenshot shows the 'Welcome to Visitu Mobile' app interface. The status bar at the top displays the time as 4:37 and battery level at 43%. The main heading is 'Welcome to Visitu Mobile' in orange, followed by a shield icon with a checkmark. Below this, it says 'Please Sign In Below'. There are two options: 'Phone Number' (highlighted in orange) and 'Email Address'. A text input field for 'Phone Number' is shown below the selected option. At the bottom, there is an orange button labeled 'Send Verification Code' and a standard Android navigation bar with three icons.

Welcome to Visitu Mobile

Please Sign In Below

Phone Number **Email Address**

Email Address

Send Login Link

Login With Password

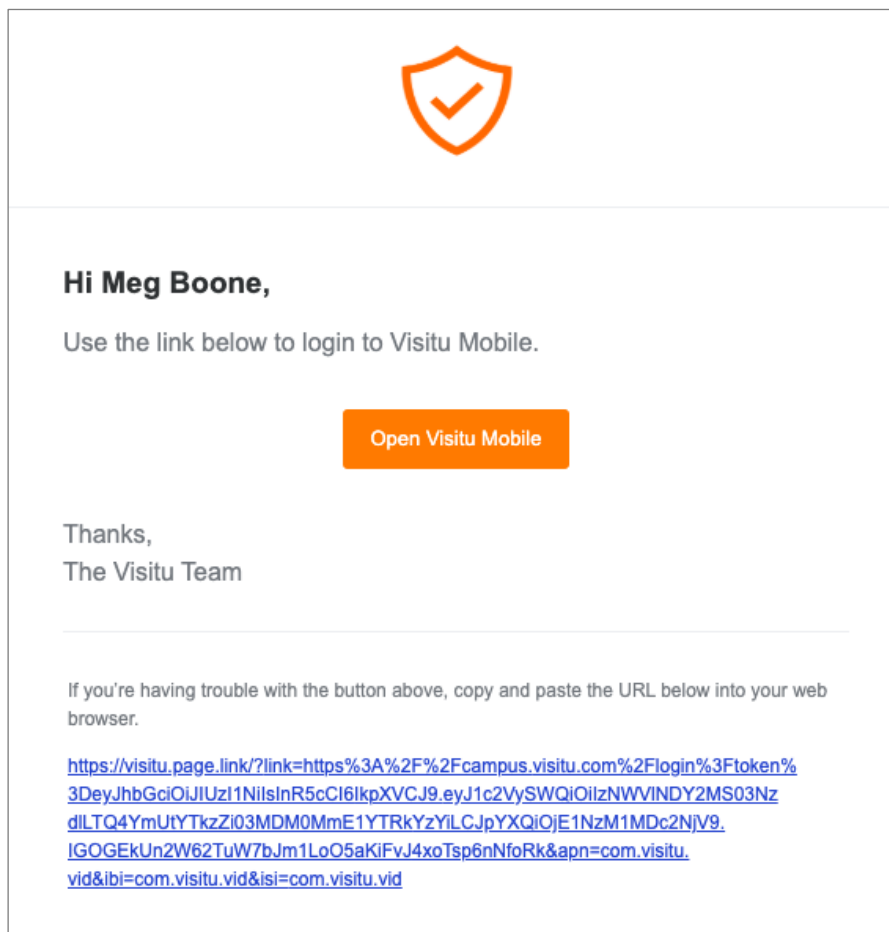

III O <

This screenshot shows the same 'Welcome to Visitu Mobile' app interface, but with 'Email Address' selected. The status bar and heading are identical. The 'Email Address' option is now highlighted in orange, and the 'Phone Number' option is in black. Below it is a text input field for 'Email Address'. There are two buttons: an orange button labeled 'Send Login Link' and a white button with an orange border labeled 'Login With Password'. The bottom navigation bar remains the same.

Signing in with the first option, **Phone Number**, you can enter a phone number and then click on **Send Verification Code** to receive a text with a verification code that, when entered, will allow you to automatically sign-in.

NOTE: Whichever sign-in method is selected, the writing will turn orange.

The second way to sign-in on the app is via **Email Address**. To do so, click on **Email Address**, enter a valid email address, then click on **Send Login Link**. You will receive a notification within the app to "Check your email for further instructions!" Once you receive the email from noreply@visitu.com and open the email on your smartphone, it will look like this:

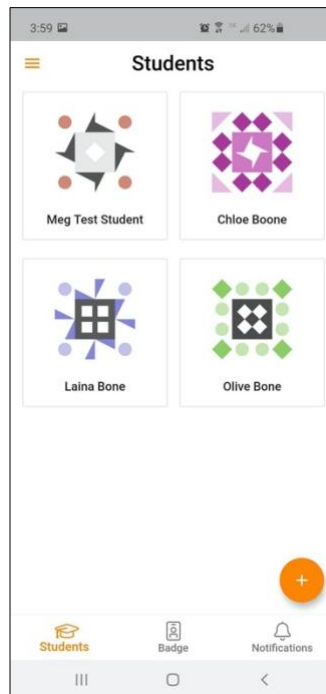

You can then click on the **Open Visitu Mobile** button to sign-in to the app automatically.

There are 3 sections of the Visitu app currently:

- **Students**
- **Badge**
- **Notifications**

Let's go through them one by one:

- **Students:** This section will show any students who are linked to your Parent/Guardian profile and houses any attendance data for a specific student (tardy, dismissal, absent notifications, etc.):

- **Badge:** When clicking on this section, you'll see: "Scan your phone to quickly sign in while visiting". This is what we call a **Quick Badge** that allows for ease of use and quick sign-in/out with one scan of the QR code on the Visitu Kiosk iPad app:

- **Notifications:** This section will show any notifications regarding any activity for your user profile. For example, if you were to visit a campus, this section would show when and where you signed in, when the visit was completed, any signed agreements, etc.:
