## People Testing Positive - 5-Day Rolling Average

Counties > 75,000 Population

Source: Wisconsin Department of Health Services

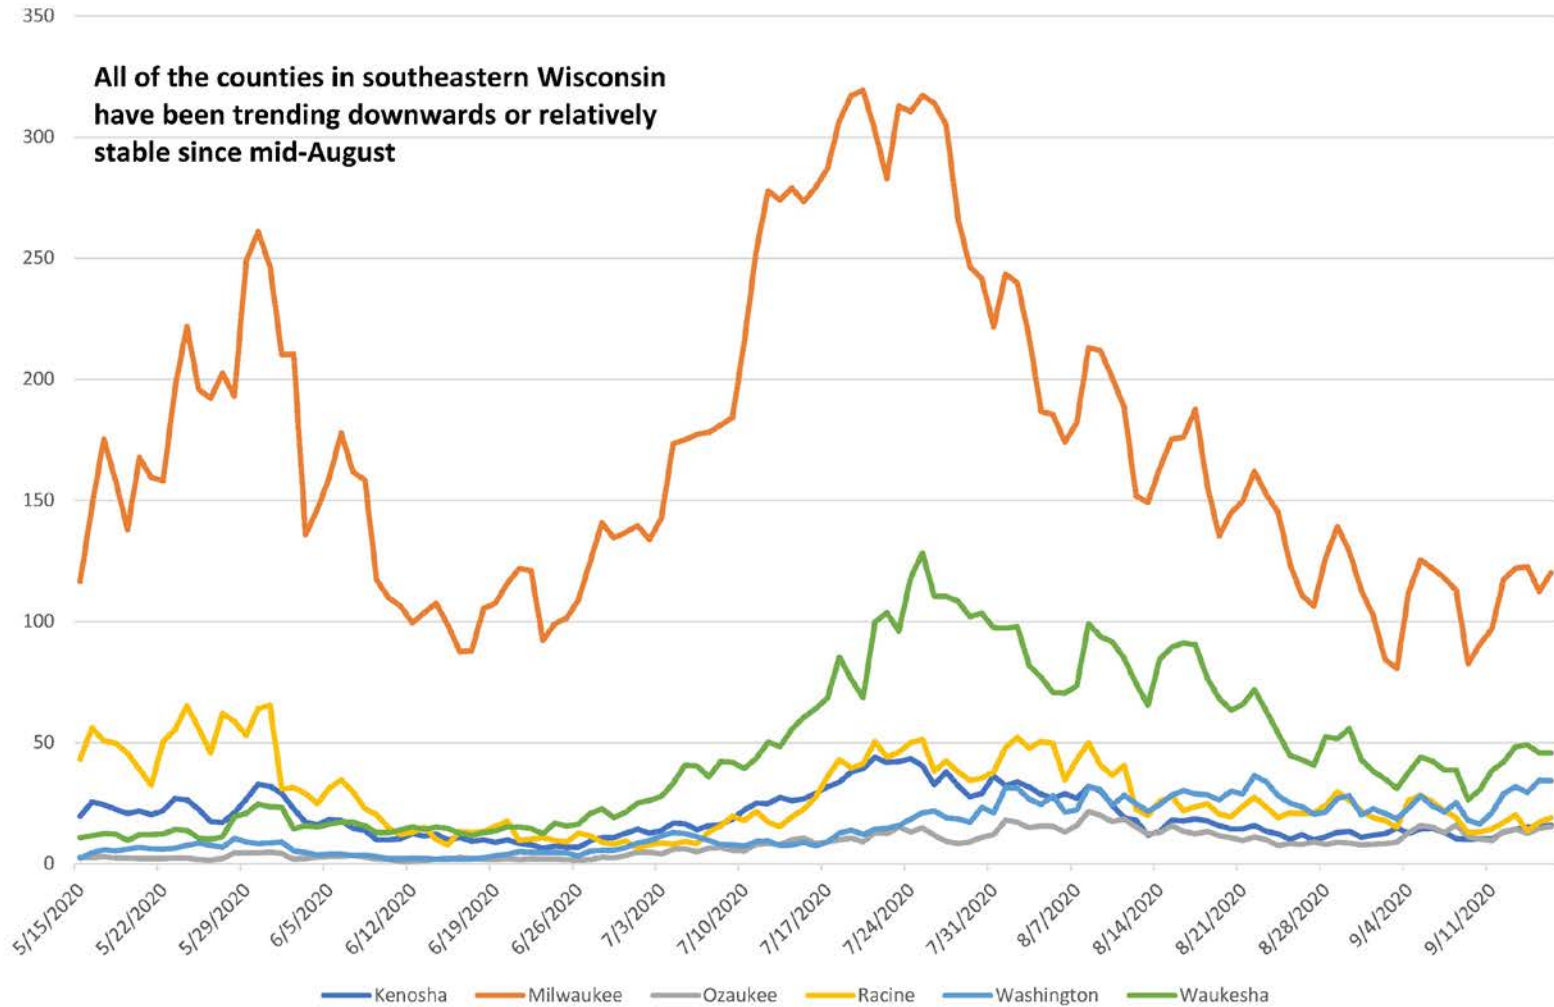

**Students returning to school have spiked positive rates in the counties where the University of Wisconsin has major campuses. In September, both the southern region (which include UW Madison) and the northeastern region (which includes UW-Oshkosh and UW-Green Bay) surpassed southeastern Wisconsin in the number of positive cases.**

People Testing Positive - 5-Day Rolling Average  
Southeastern Wisconsin Counties > 75,000 Population  
Source: Wisconsin Department of Health Services

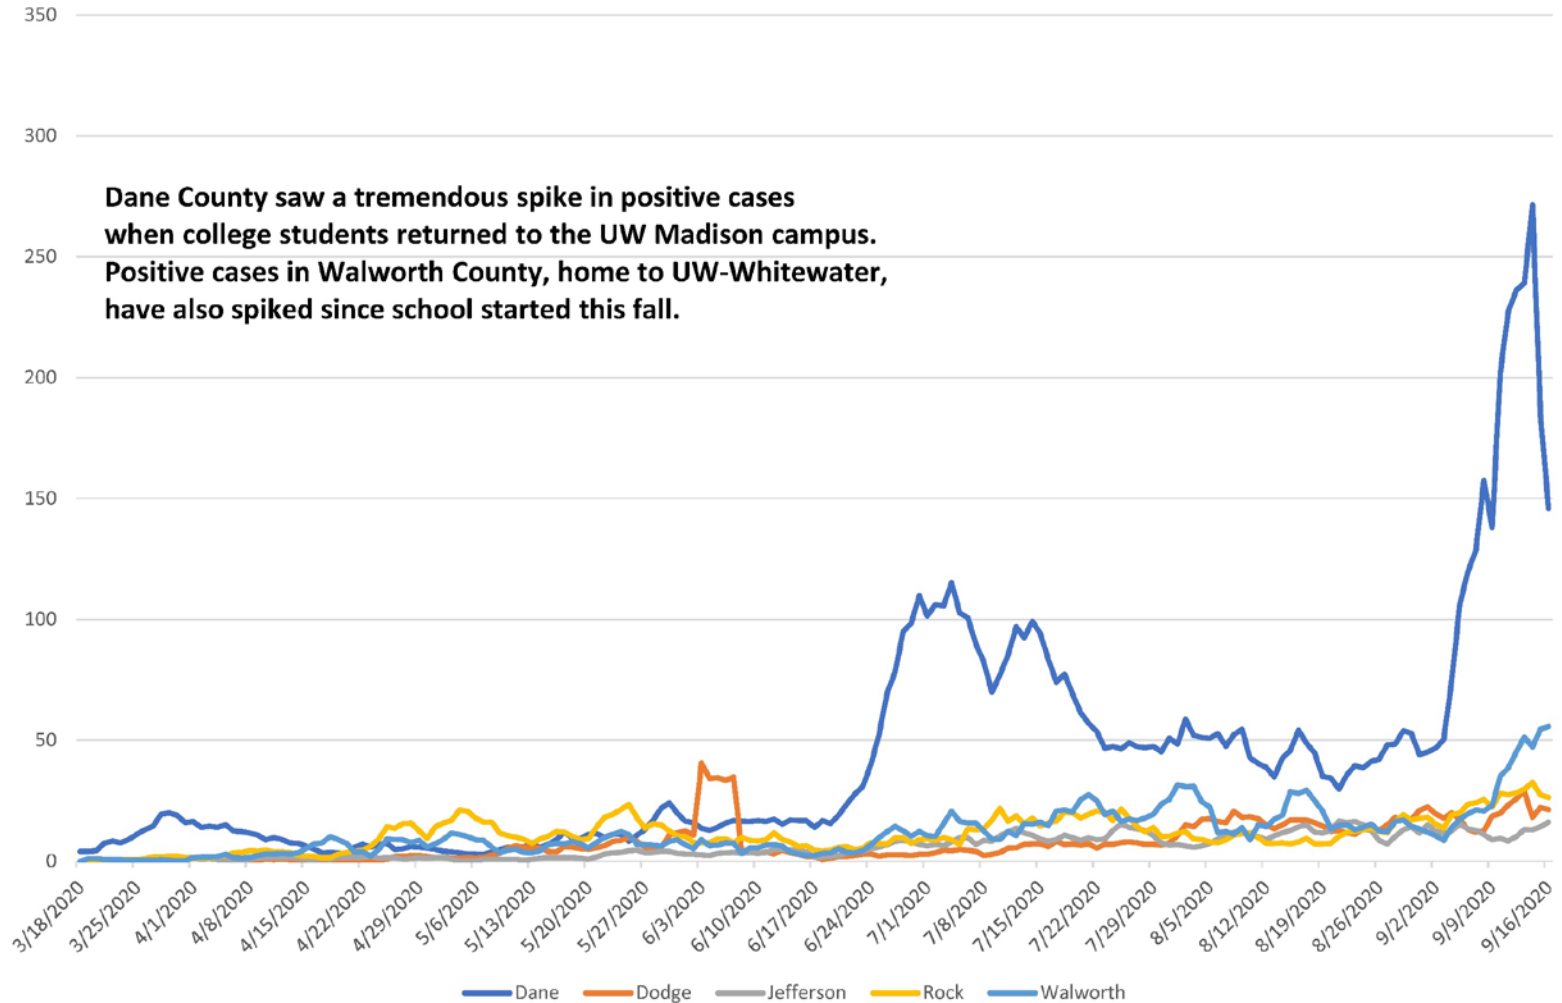

**All of the counties in southeastern Wisconsin  
have been trending downwards or relatively  
stable since mid-August**

People Testing Positive - 5-Day Rolling Average  
Southern Wisconsin Counties > 75,000 Population  
Source: Wisconsin Department of Health Services

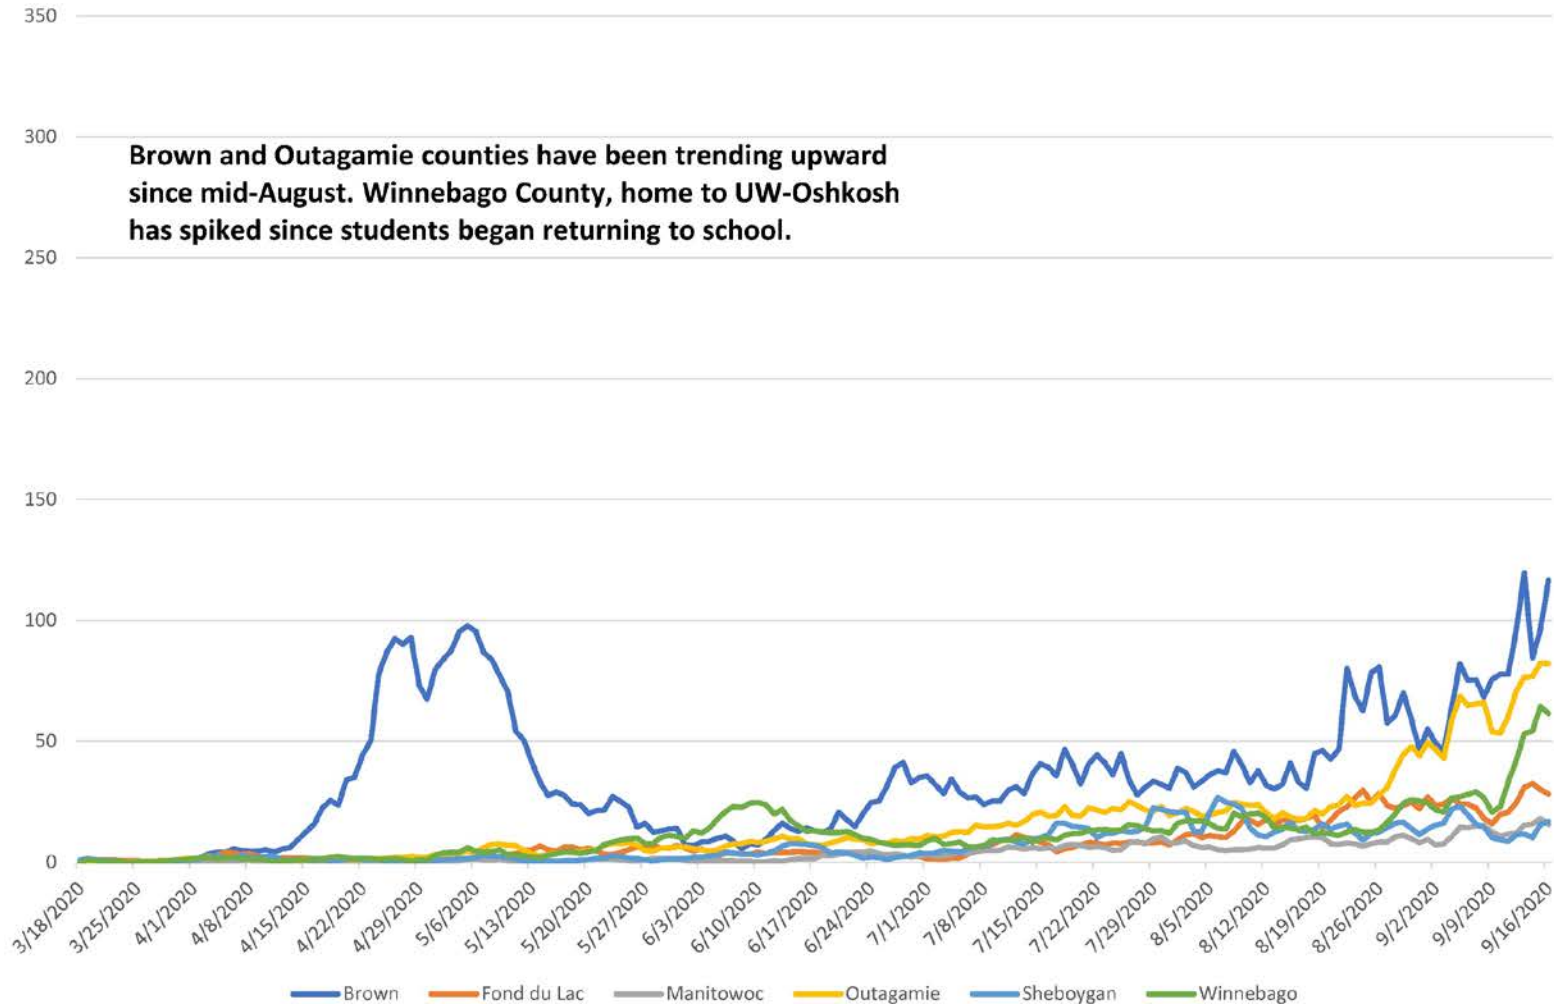

**Dane County saw a tremendous spike in positive cases when college students returned to the UW Madison campus. Positive cases in Walworth County, home to UW-Whitewater, have also spiked since school started this fall.**

People Testing Positive - 5-Day Rolling Average  
Northeastern Wisconsin Counties > 75,000 Population  
Source: Wisconsin Department of Health Services

**Brown and Outagamie counties have been trending upward since mid-August. Winnebago County, home to UW-Oshkosh has spiked since students began returning to school.**

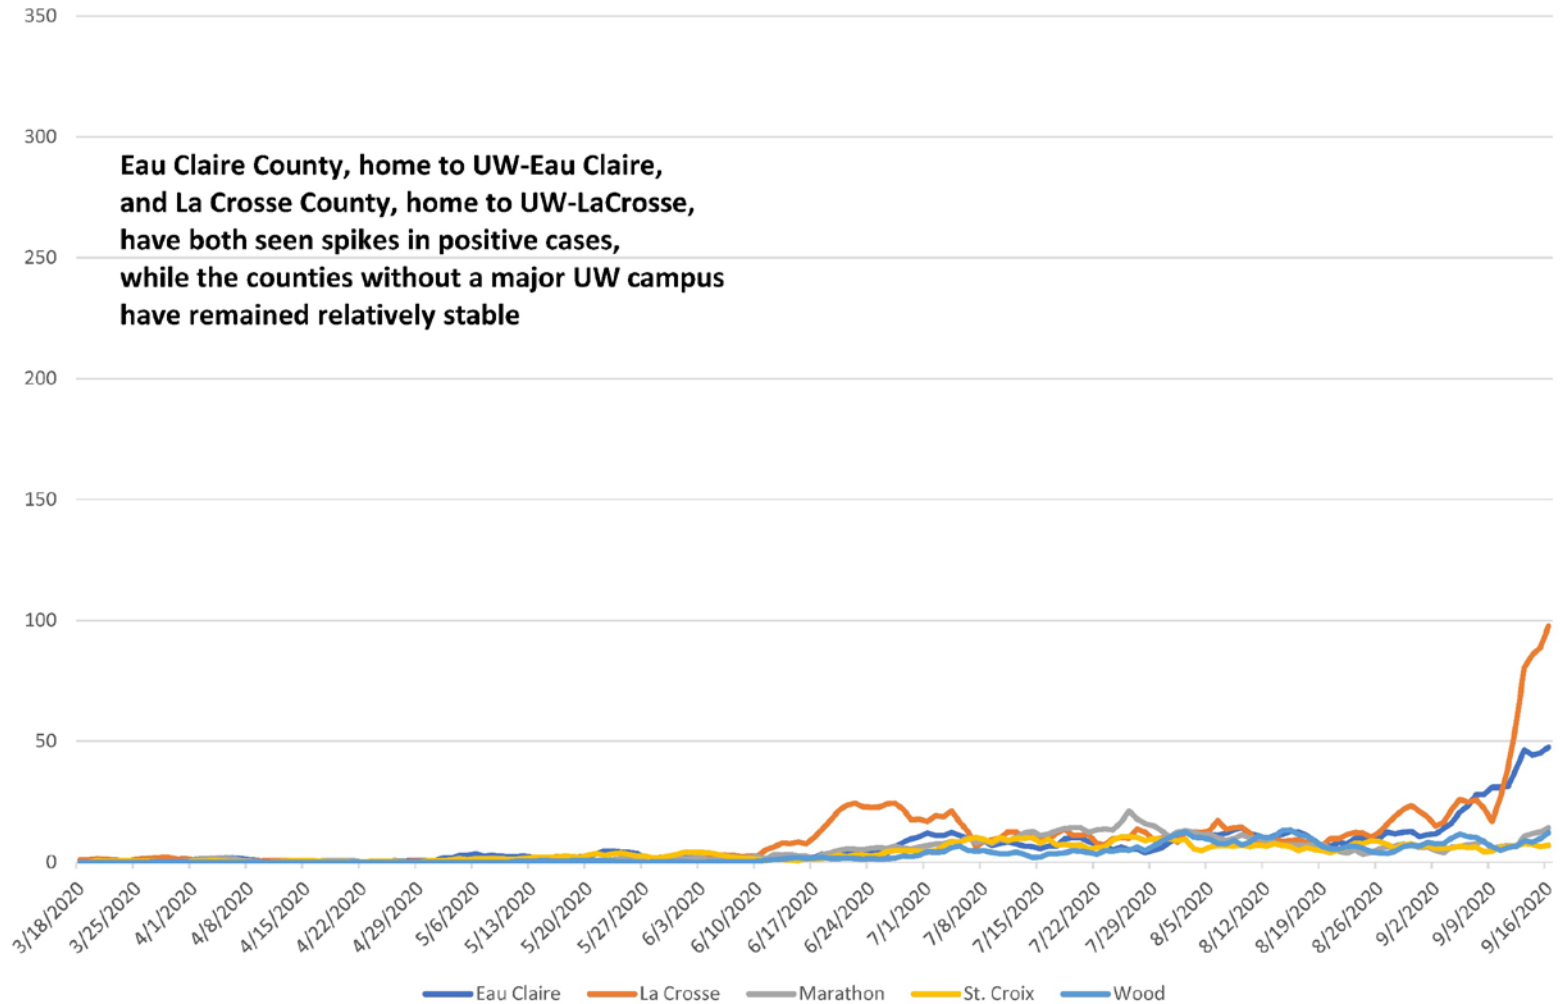

People Testing Positive - 5-Day Rolling Average  
Northern and Western Counties > 75,000 Population  
Source: Wisconsin Department of Health Services

**Eau Claire County, home to UW-Eau Claire,  
and La Crosse County, home to UW-LaCrosse,  
have both seen spikes in positive cases,  
while the counties without a major UW campus  
have remained relatively stable**

## INTERNATIONAL COMPARISONS

United States compared to G-7 Industrial Countries

source: [www.worldometers.com](http://www.worldometers.com)

**The United States leads the industrialized world in positive cases per million, but has the second-lowest death rate (the percentage of positive cases that result in death)**

### TESTS PER MILLION

Rank	Country	Tests Per Million
1	United Kingdom	301,952
2	United States	284,746
3	Spain	230,050
4	Germany	173,627
5	Italy	166,183
6	France	153,129
7	Japan	13,976

### CASES PER MILLION

Rank	Country	Cases Per Million
1	United States	20,603
2	Spain	13,139
3	France	6,200
4	United Kingdom	5,565
5	Italy	4,822
6	Germany	3,183
7	Japan	605

### DEATHS PER MILLION

Rank	Country	Deaths Per Million
1	Spain	647
2	United Kingdom	613
3	United States	608
4	Italy	590
5	France	475
6	Germany	113
7	Japan	12

### DEATH RATE (AS PERCENT OF CASES)

Rank	Country	Death Rate
1	Italy	12.2%
2	United Kingdom	11.0%
3	France	7.7%
4	Spain	4.9%
5	Germany	3.6%
6	United States	3.0%
7	Japan	2.0%

## Cumulative COVID-19 Deaths by State

Source: [www.covidtracking.com](http://www.covidtracking.com)

**Six states account for almost half of all deaths in the nation**
