

SAP Signavio – Model-Driven Approach to Enterprise Change

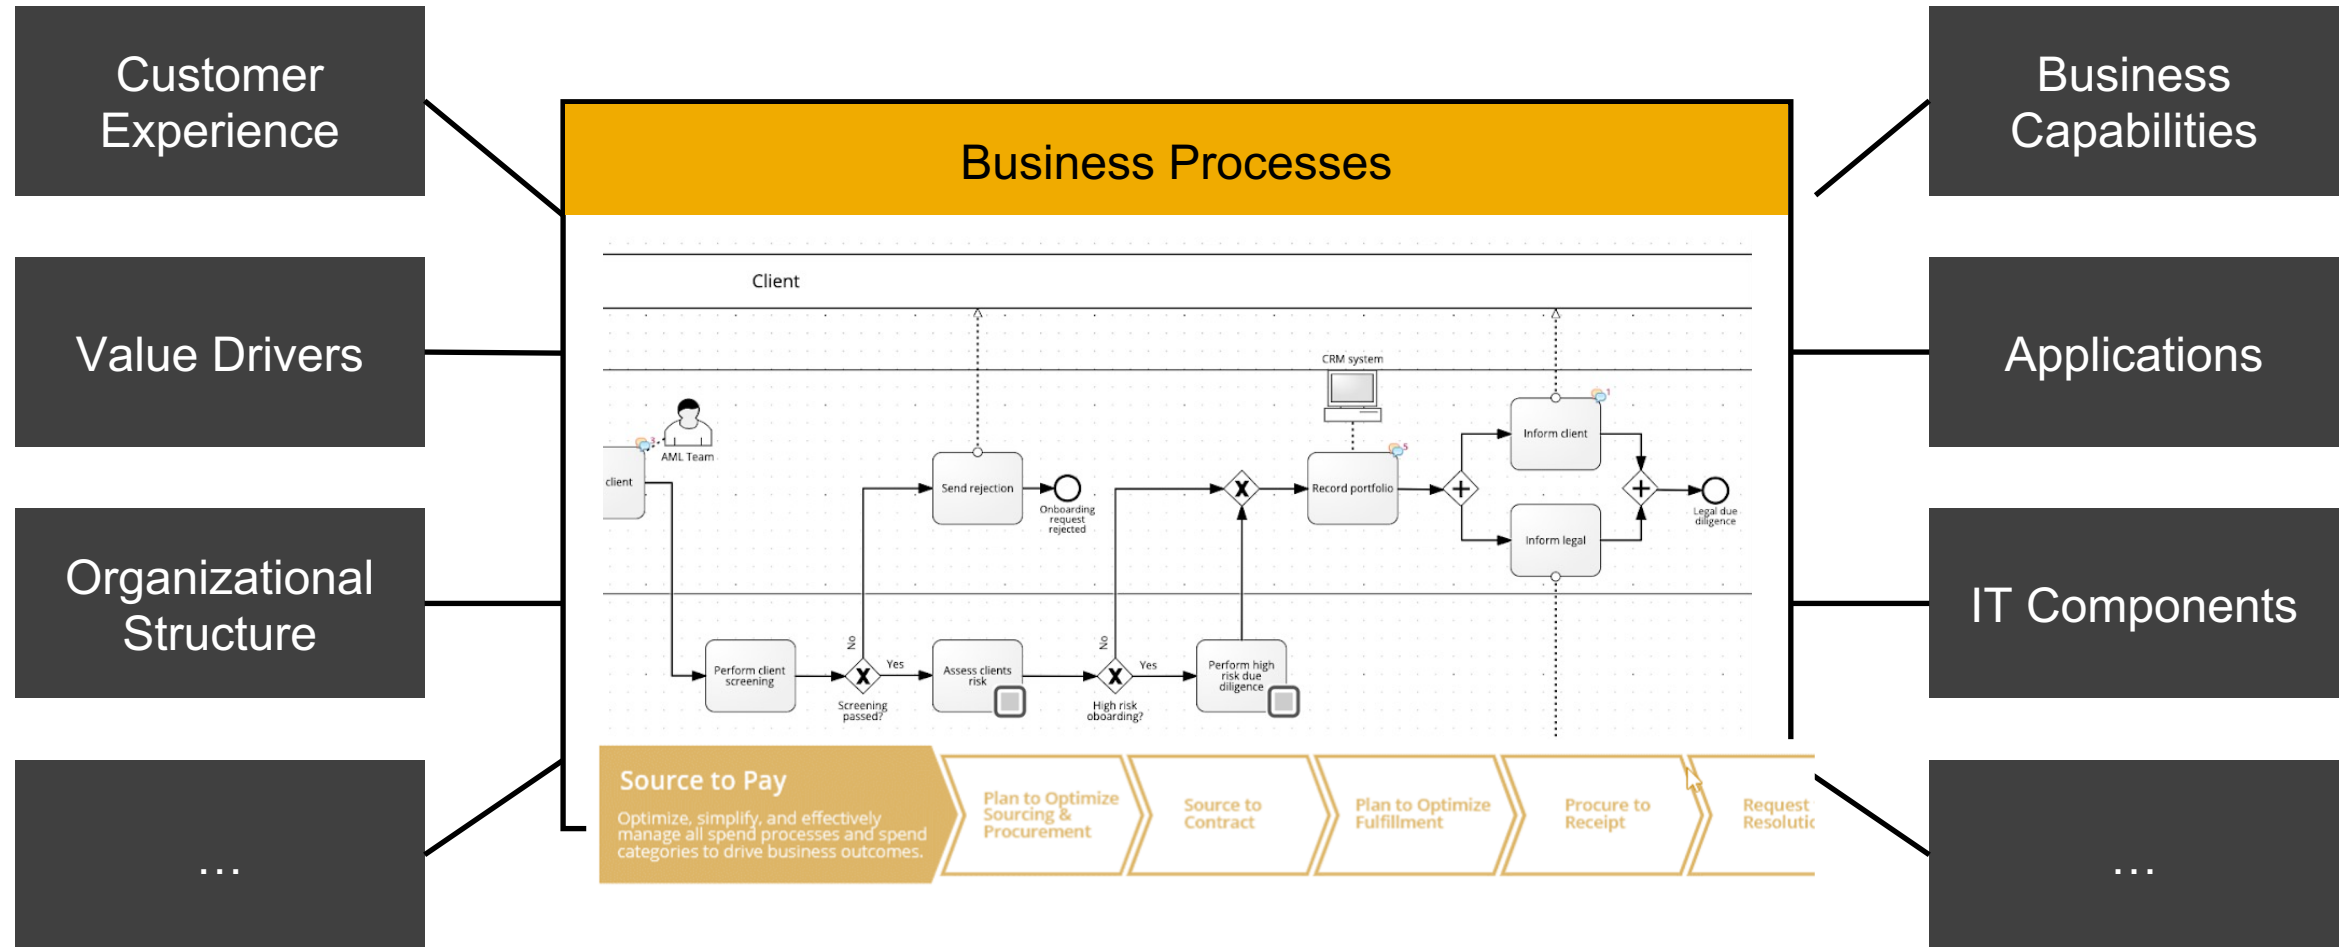

Dr. Gero Decker, General Manager Business Process Intelligence

March 2022

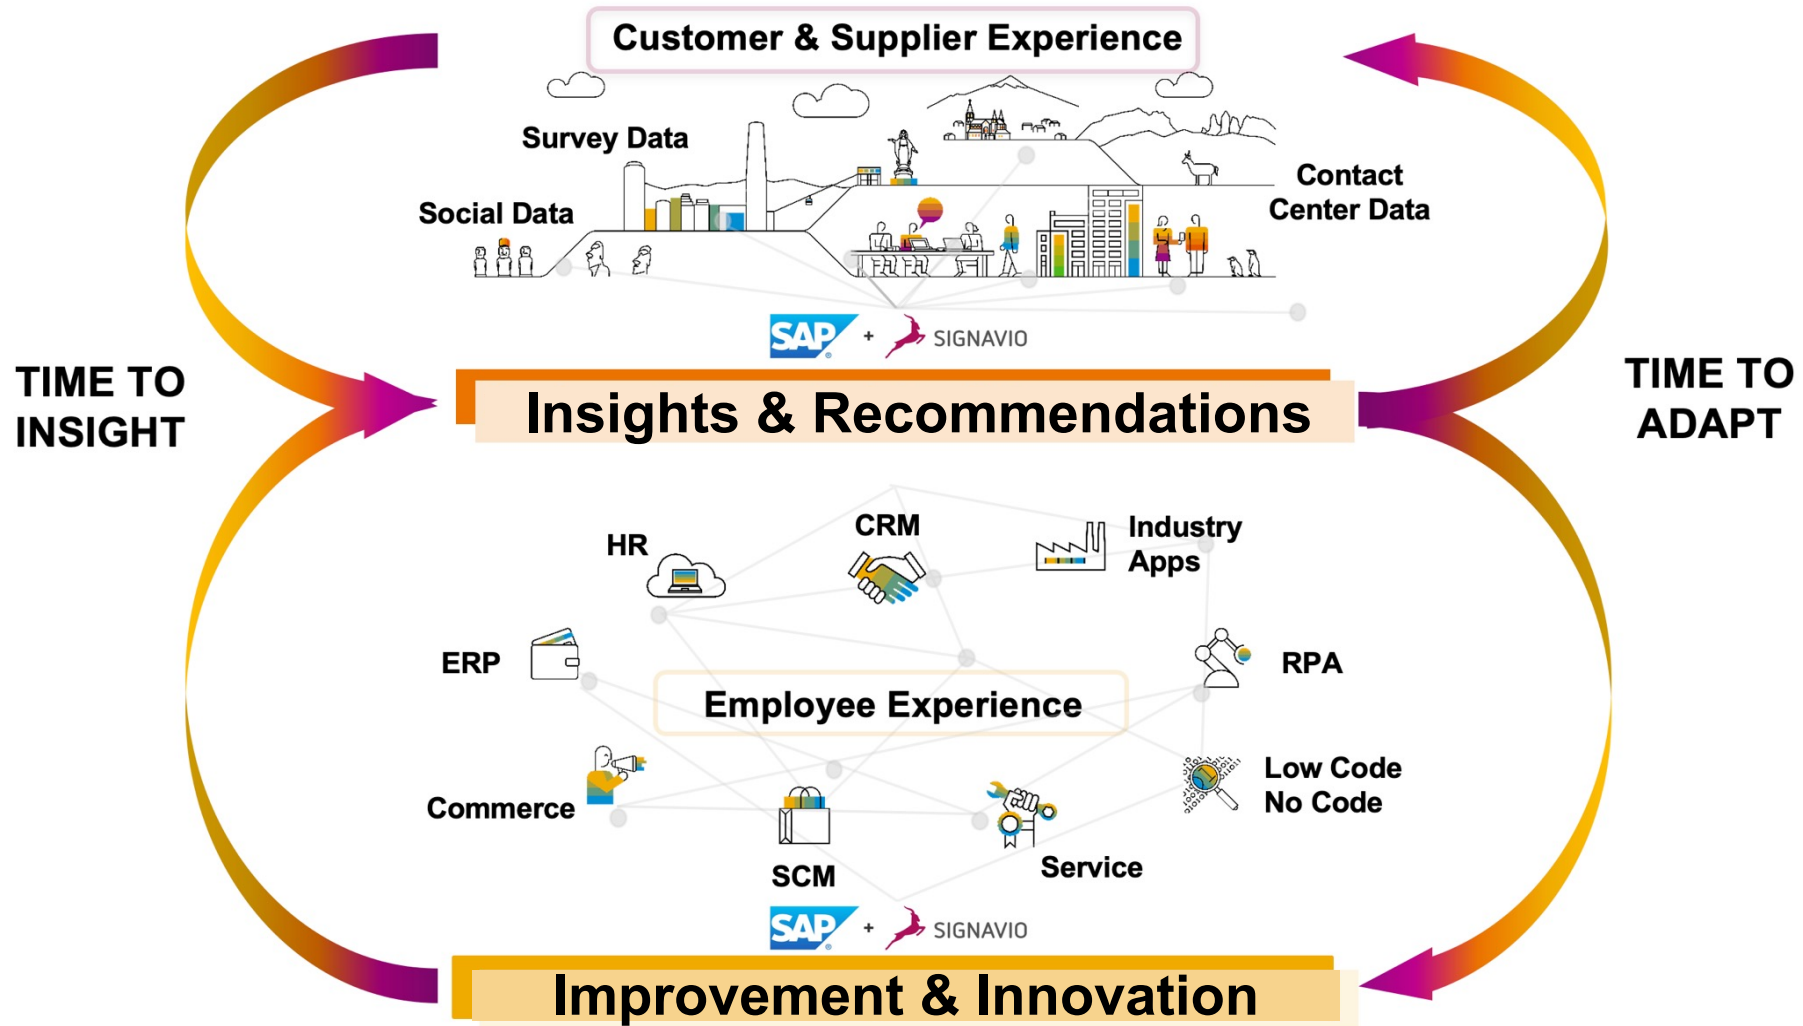

**Change
is only accelerating.**

Model-driven Approach to Change

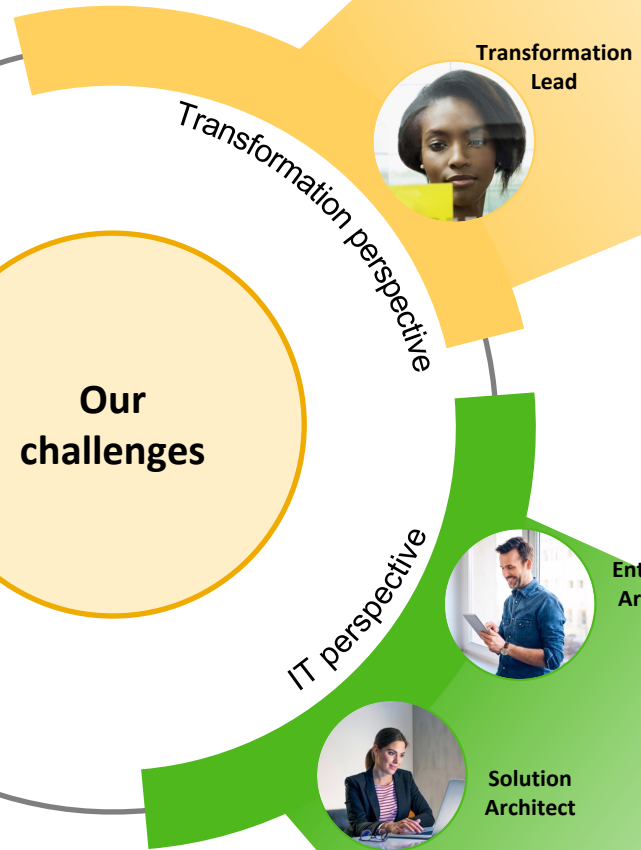

Model-driven Approach to Accelerated Change

How can we bring everyone together?

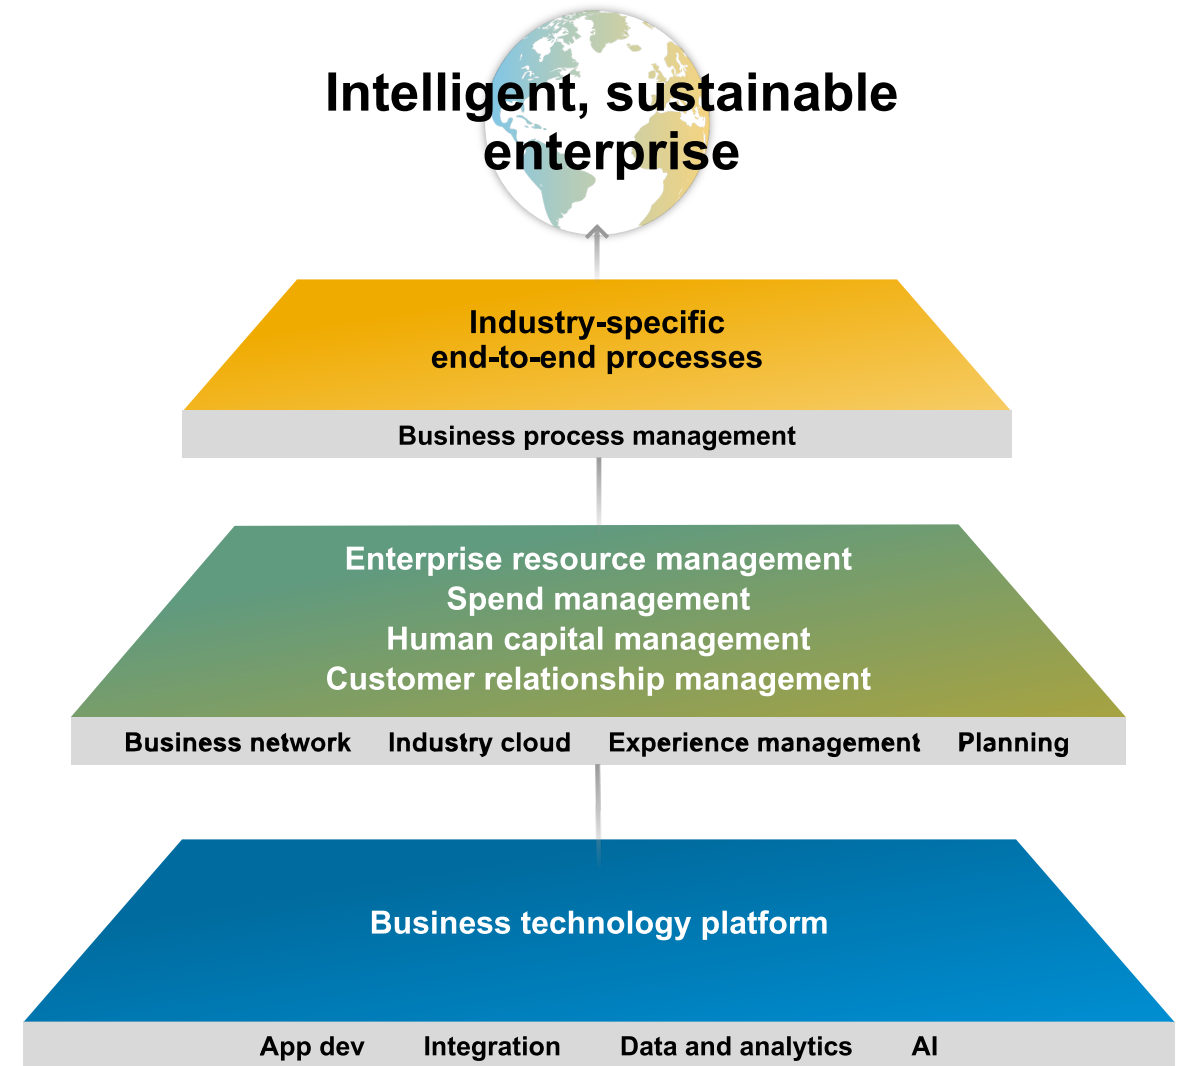

“We need to **design and monitor our end-to-end processes** to drive operational excellence”

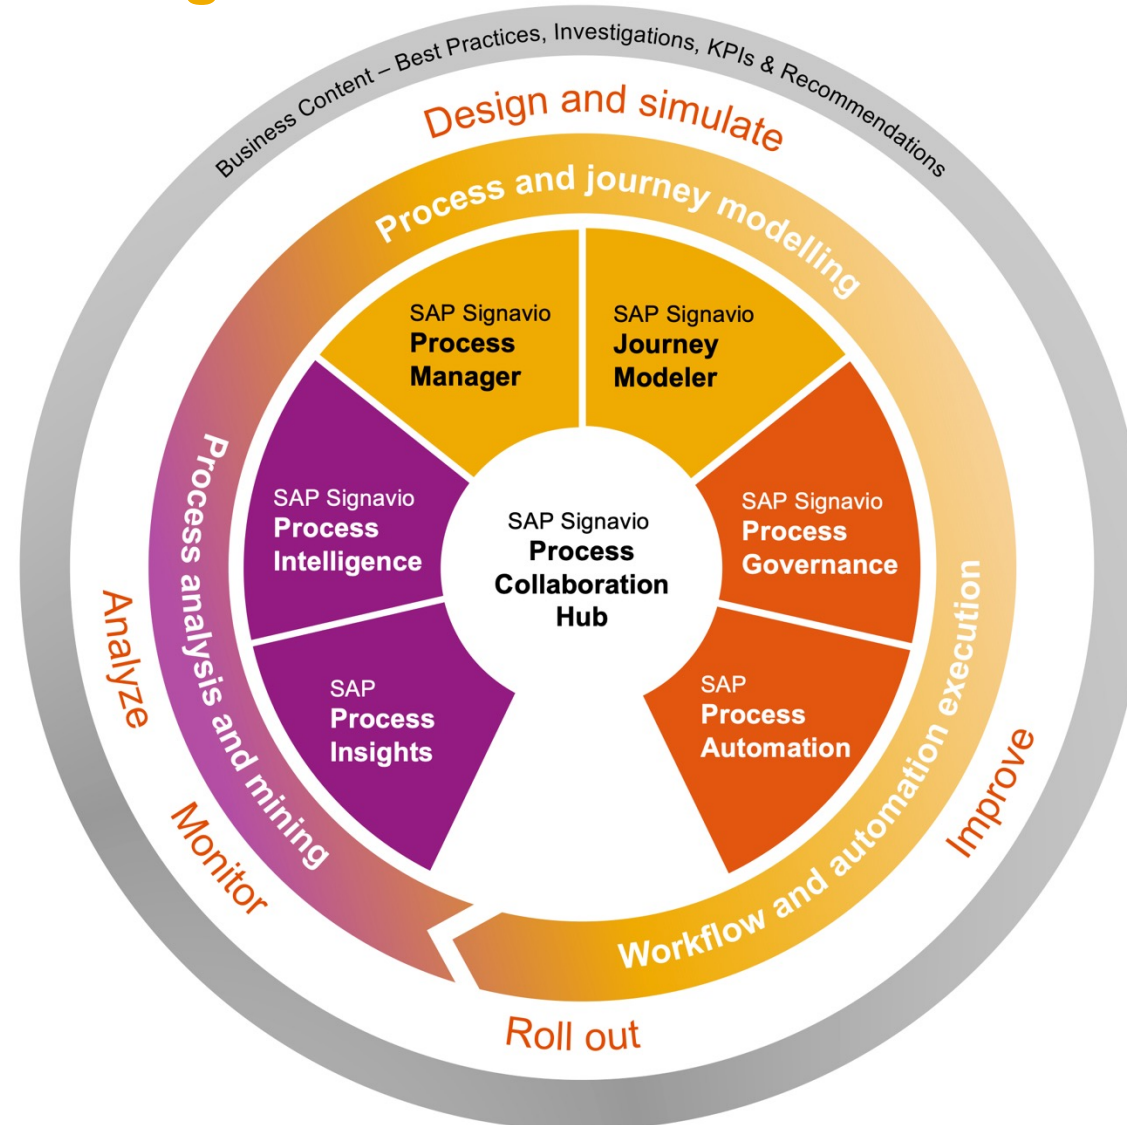

“I am looking for thought leadership and insights which will help me **drive the transformation program**, and gain buy-in from stakeholders.”

“We need to **design an enterprise architecture** that allows to execute our business strategy”

Enable every enterprise to become an **intelligent, sustainable enterprise**

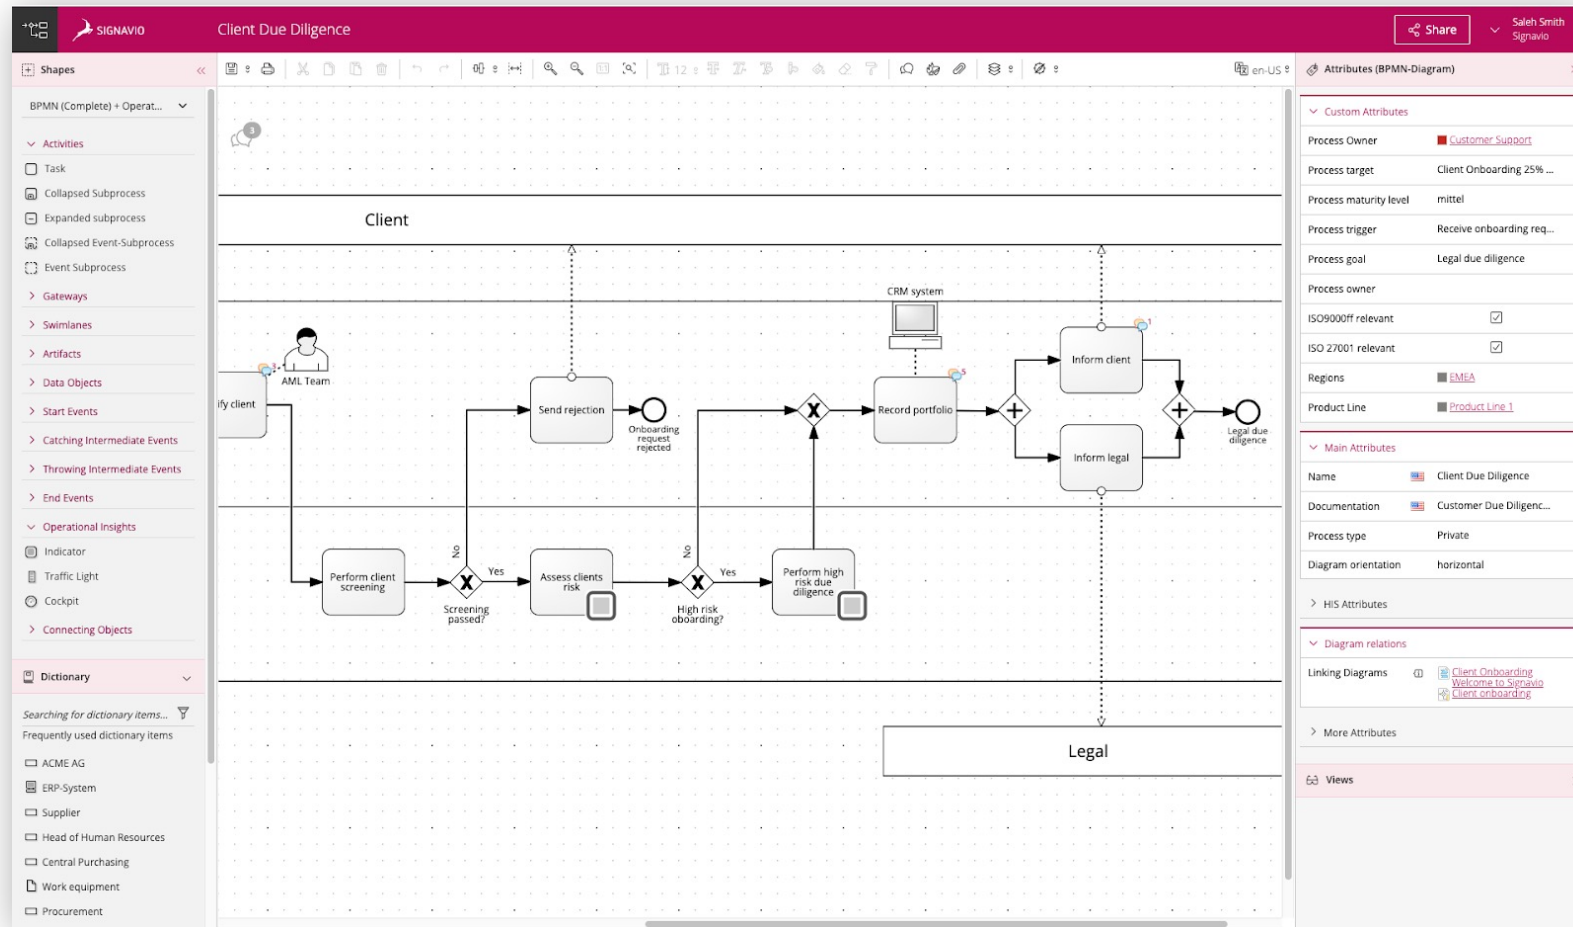

The SAP Signavio Process Transformation Suite enables accelerated change

SAP Signavio Process Manager

Discover, document, visualize, standardize, collaborate, and optimize your processes
Using a cloud-based modeling, repository, and analytics tool

Process modeling

Design and model your business processes collaboratively.

Analysis and simulation

Analyze your processes and mitigate business risks using reports. Simulate the impact of changes prior to implementation.

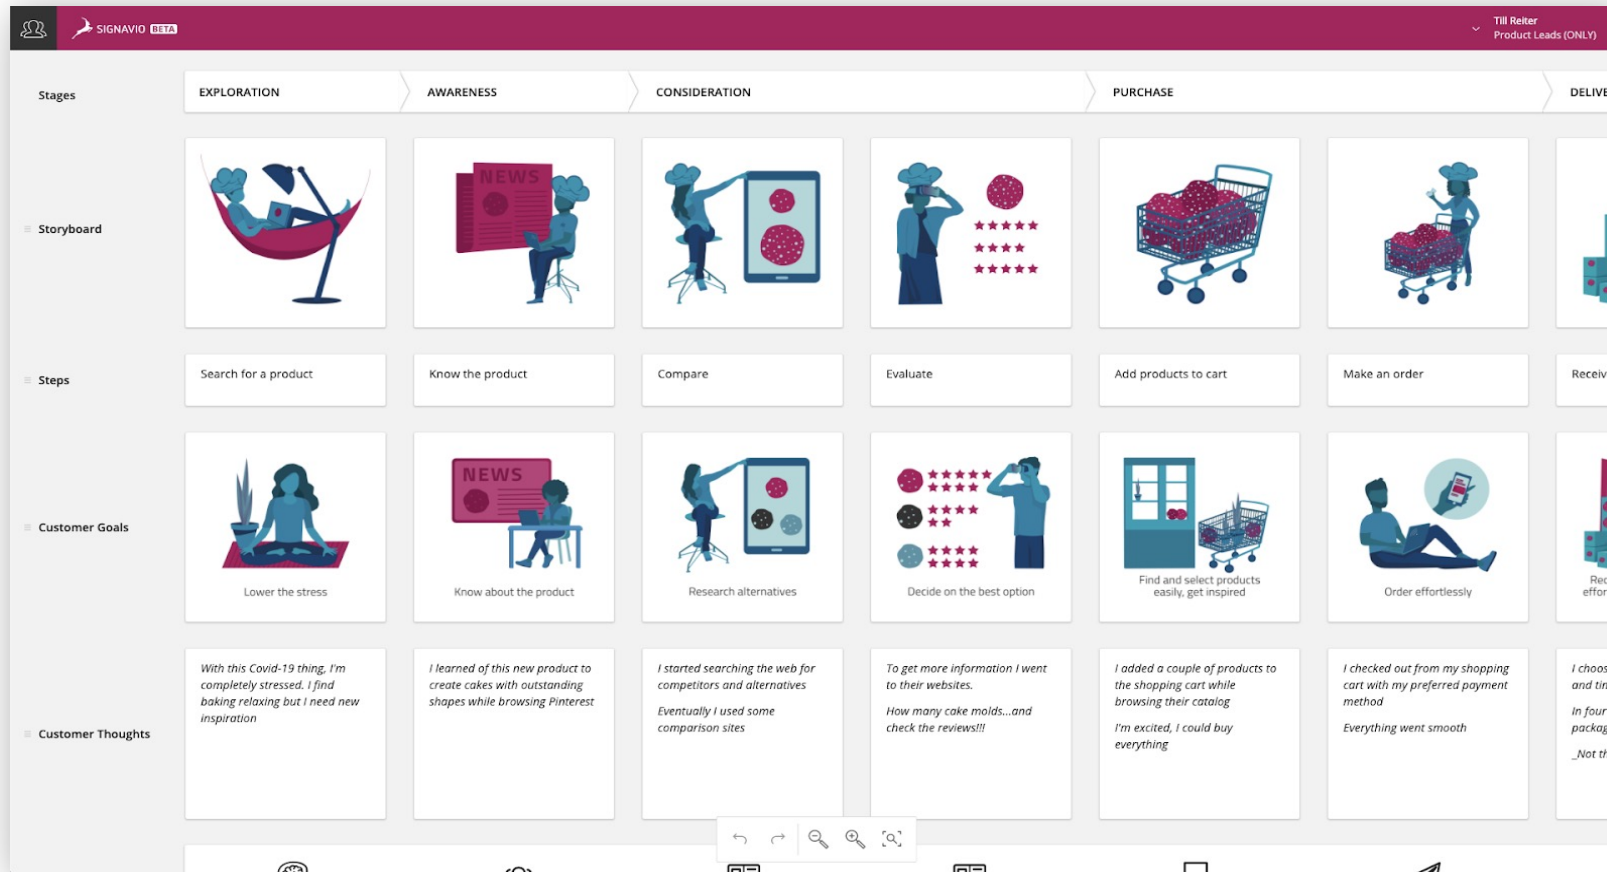

Transparency

Provide a transparent overview of the process landscape

SAP Signavio Journey Modeler

Enabling you to operationalize customer experiences

Connecting journeys and processes, metrics, systems, and roles

Connect processes with journeys

Integrate operational and experience data with journeys.

Design journey models

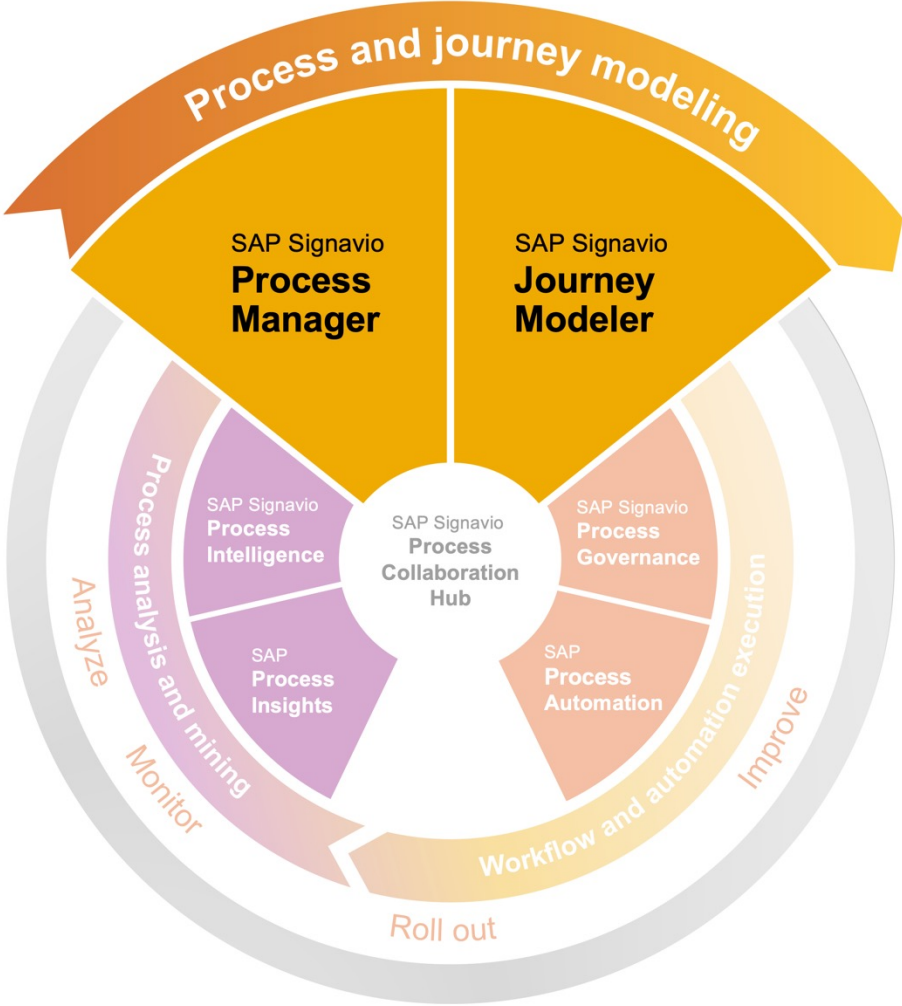

Benefit from an intuitive journey modeling environment.

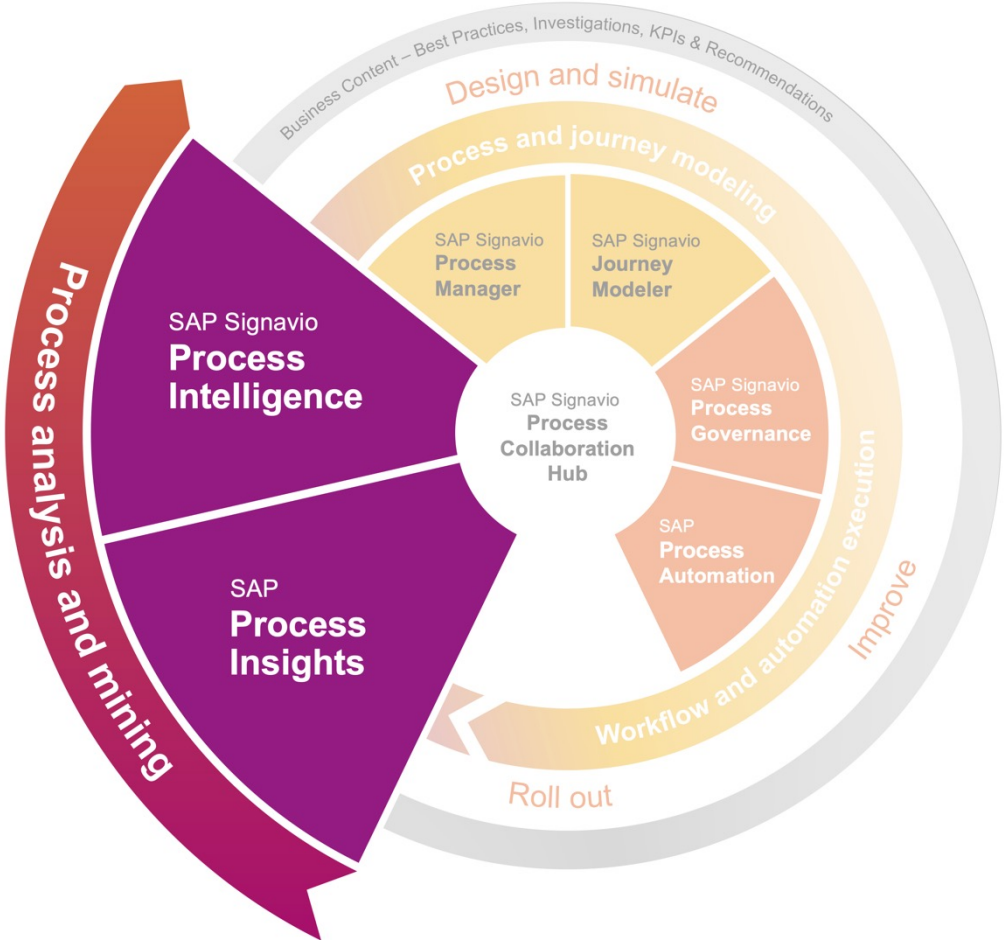

Comment and collaborate

Collaborate on modeling journeys, get feedback on your journeys, and comment on a single step, a stage, or the whole journey.

Process and journey modeling

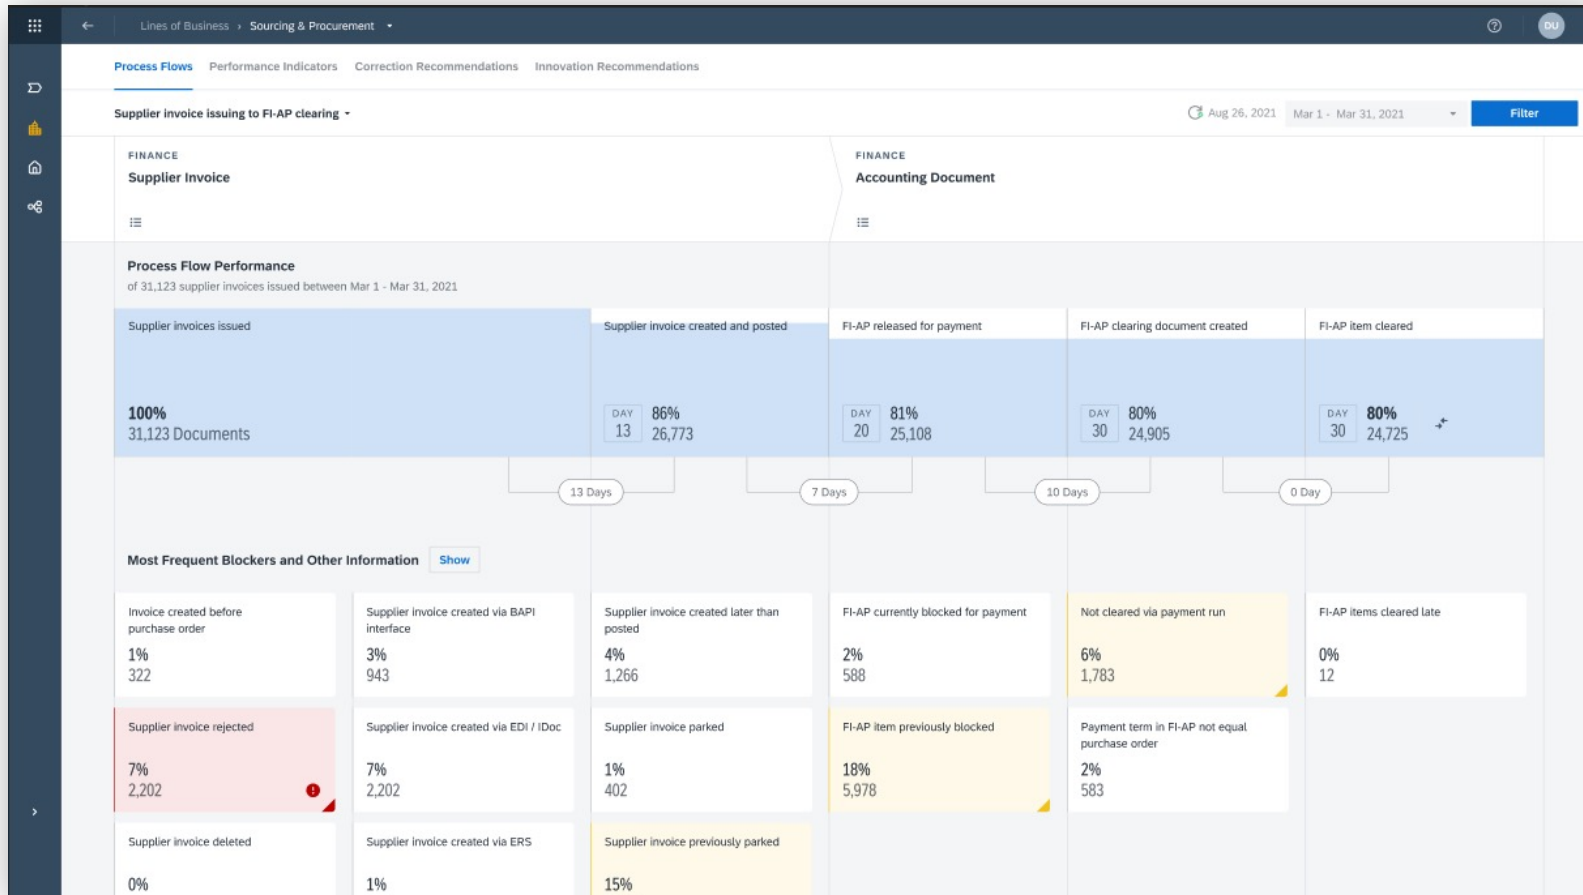

Process analysis and mining

SAP Process Insights

Understand your process performance

Using 40+ delivered process flows and 900+ typical issues and inefficiencies

Leverage data

Make data-driven decisions about which business areas to prioritize for improvement.

Get insights fast

Updates happen daily.

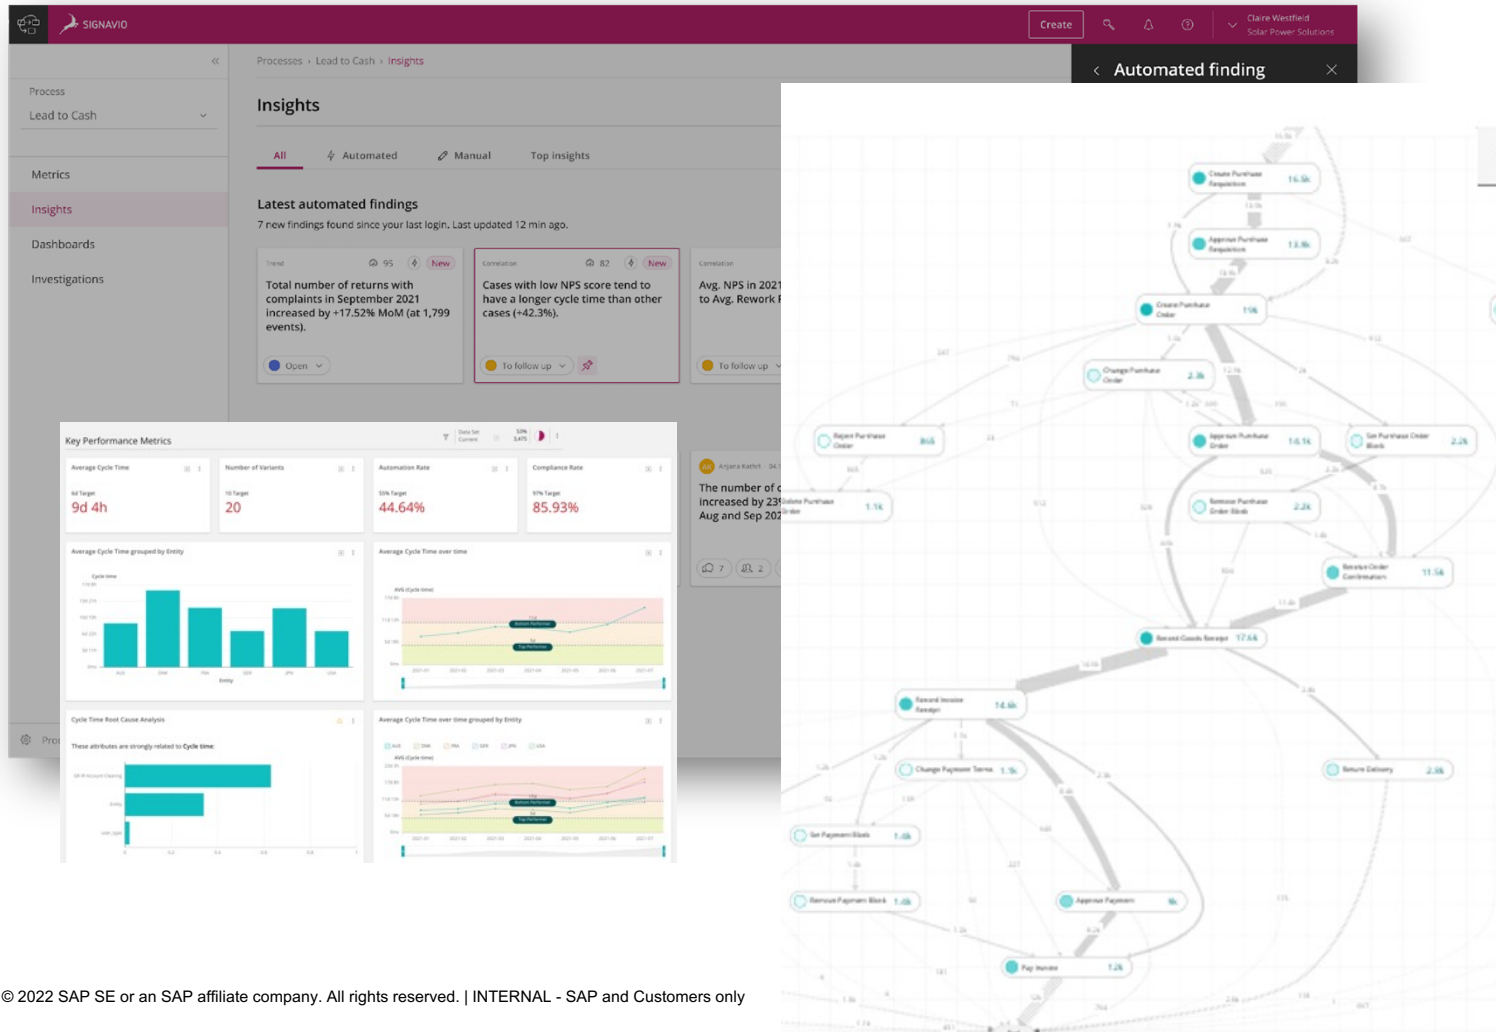

More is to come

The number of available process flows increases with every release.

SAP Signavio Process Intelligence

Unleash the potential of your process data

Reducing time to insights and identifying levers to improve

Get full visibility into your process reality
Support internal transformations and efficiency programs. Improve the way you operate.

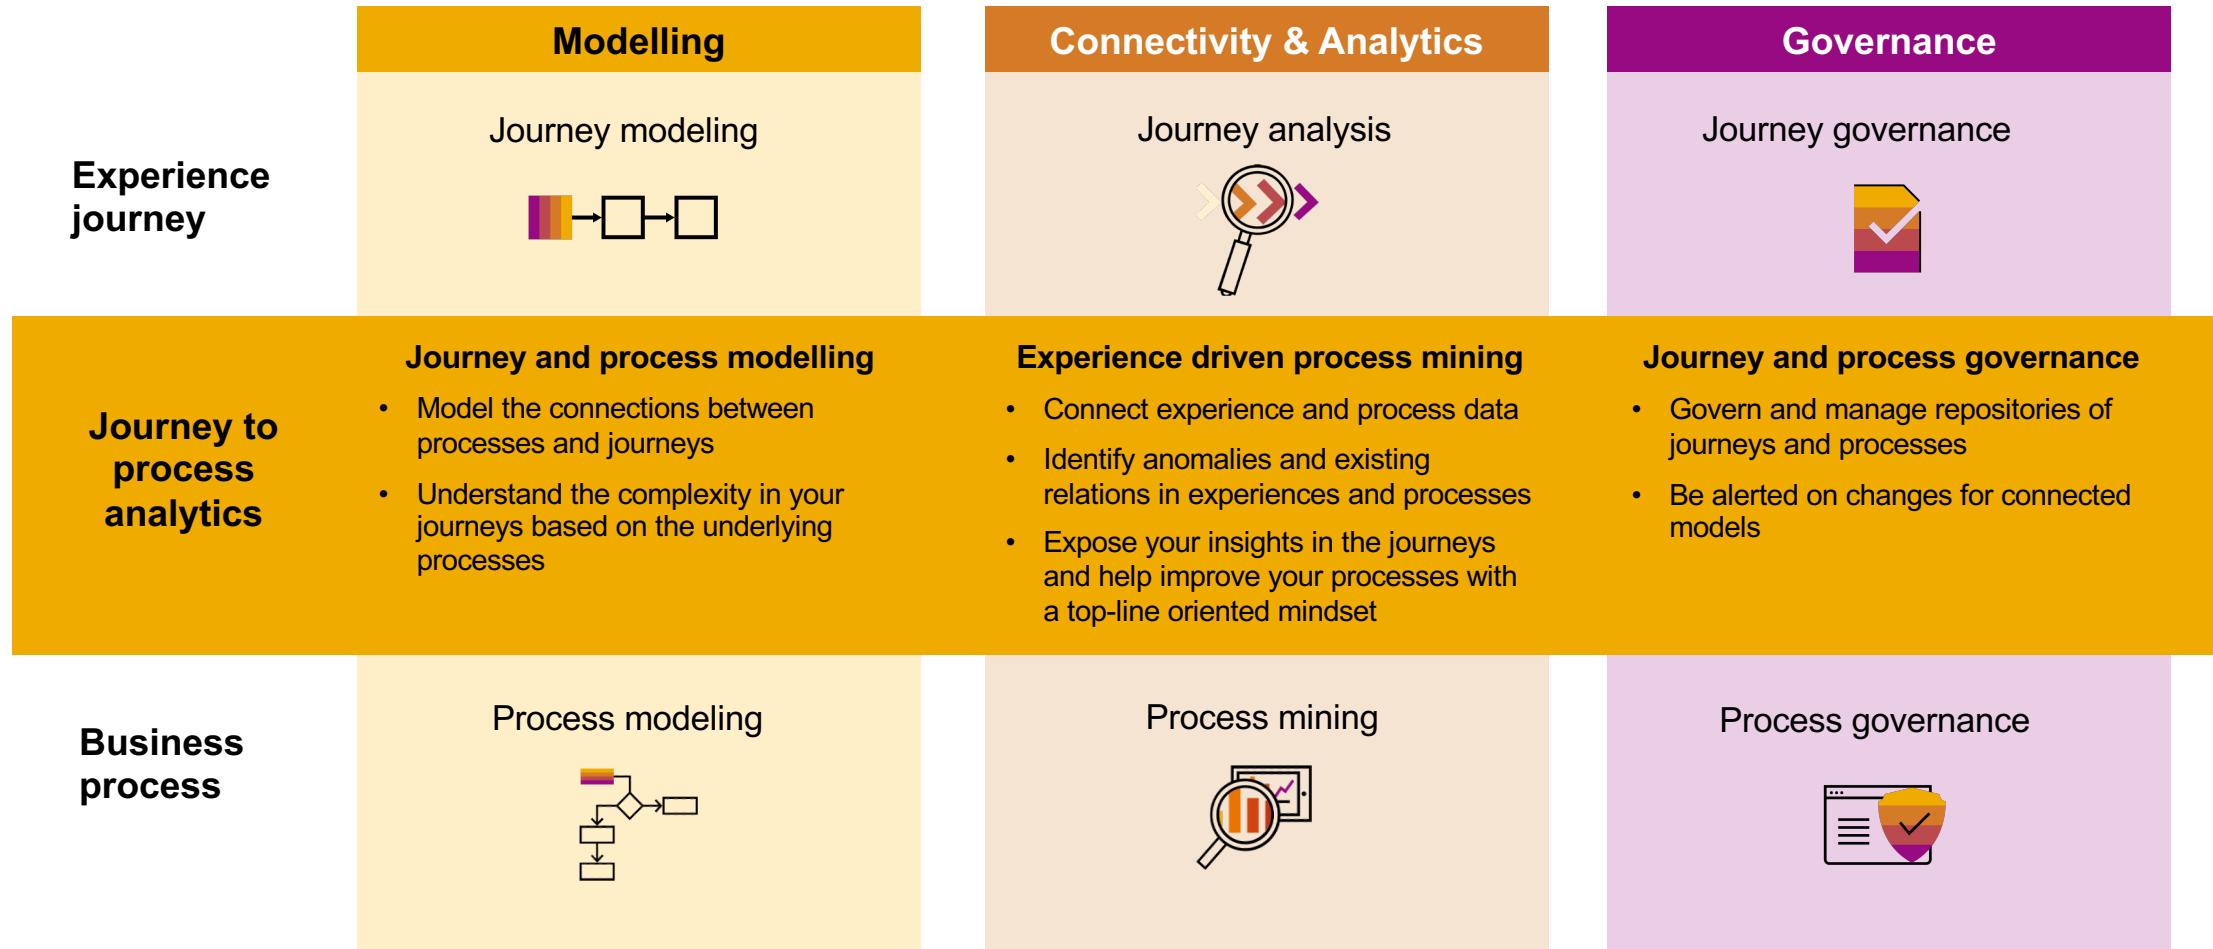

Uncover opportunities with process mining
Leverage ready-to-use insights, standard metrics, and powerful data querying capabilities to **uncover process inefficiencies**, reducing your time to insights.

Blend process and experience analytics
Spot inefficiencies and problems hitting top and bottom lines by **blending process and experience analytics** in one single framework.

Journey to process analytics **an end-to-end approach to transform operations and experience**
