eClose Mortgages Anytime, Anywhere

Streamline closing processes and eliminate errors, costly printing fees, and time-consuming shipping fees with Snapdocs digital closing platform. And provide peace of mind to all users with the DocuSign signing experience everyone trusts embedded in the Snapdocs platform.

Snapdocs offers a consistent and seamless borrower experience with secure, reliable, and efficient eSigning powered by DocuSign. With DocuSign's eSignature platform natively integrated into the Snapdocs Digital Closing Platform, borrowers, lenders, and settlement partners can eSign their documents at any time, with any device. With Snapdocs' proprietary machine learning and AI to identify documents and place annotation tags with nearly 100% accuracy, and document preview & eSign functionality powered by DocuSign, errors at the signing table are reduced by more than 80%.

Snapdocs embeds the DocuSign signing experience that everyone trusts so lenders can expect a seamless closing and signing experience for all participants.

“ **While many lenders continue to just talk about moving to digital, we're making tremendous strides in making it the default at Waterstone Mortgage. We believe in taking a very deliberate, structured approach to ensure optimal client service and experience along the way, and the feedback thus far has been overwhelmingly positive,**”

- Tom Knapp, CIO of Waterstone Mortgage.

As the most secure and trusted platforms within the Financial Industry, the Snapdocs and DocuSign integration guides your borrowers, settlement agents, and loan officers to eSign critical and non-critical closing documents worry-free.

DocuSign

eSign documents from any device, anywhere--eliminating the time-consuming and costly task of printing and shipping documents. DocuSign is the most trusted eSignature platform in the financial industry due to complete document encryption and audit trail. Documents will never have missing signatures or incorrect information, so you can close and fund your loans faster. DocuSign is also a Snapdocs investor. To learn more, visit docusign.com

Snapdocs is simplifying the mortgage closing process. As the provider of the industry's leading mortgage platform, Snapdocs provides 130,000+ real estate professionals with a pragmatic, proven path to adopt digital closings and create a single, scalable process online for every transaction. The company powered more than 13% of all U.S. residential mortgages in the last 12 months and is backed by prominent investors including YC Continuity, Sequoia Capital, F-Prime Capital and Founders Fund.
