

A photograph showing a ZOLL AED (Automated External Defibrillator) and a ZOLL first aid kit. The AED is yellow and black, with a screen displaying a person's image. The first aid kit is a black plastic case with a handle, open to reveal various medical supplies. The screen of the first aid kit displays a red phone icon and the text "CALL 911 NOW". The background is a blurred clinical setting with a person in a white coat.

Are you ready to make every second count?

ZOLL's ResQSystem Solution lets customers choose a ZOLL® AED to pair with a Mobilize Rescue Systems™ trauma kit and support both with robust program management from Rescue Ready® Services. Organizations can tailor a public access safety solution to their specific needs.

- **Peace of mind — your organization will be prepared to manage most medical emergencies until EMS arrives**
- **Equipment that's visible and accessible whenever needed**
- **Equipment and program management designed to meet your organization's unique needs**
- **Ensured compliance**
- **Demonstrated commitment to employee safety**

Only ZOLL offers a customizable, complete safety solution that helps bystanders respond to sudden cardiac arrest and other medical emergencies, while also incorporating program management features that support compliance and device readiness.

ZOLL AEDs

ZOLL AEDs provide real-time, Guideline-driven feedback that helps bystanders deliver high-quality CPR and a defibrillating shock, if needed, to a victim of sudden cardiac arrest (SCA).

MOBILIZE RESCUE SYSTEMS

An extensive set of medical supplies and an interactive, easy-to-use instructional app enable bystanders to assess, monitor, and manage critical injuries.

RESCUE READY SERVICES

Exceptional program management, training, and service and maintenance options help organizations manage safety programs and ensure that safety equipment and trained responders are prepared.
