Soler&Palau
Ventilation Group

The expression “there’s no place like home” has never been so true.

With Connectair® you can breathe easy in the knowledge that your ventilation system is under control.

Use any device to achieve optimal indoor air quality and maximum comfort at home.

We are proud to present Connectair®

Your personal ventilation platform.

- Designed specifically for your S&P device.
- Control your ventilation system using any device.
- Achieve maximum comfort at home.
- Simplified remote maintenance.
- Complete with operating history.

Zero concerns

Intuitive and easy-to-use platform

You can easily access and view the status of your device. You will be able to modify the ventilation level, check the environmental conditions of your home, check the condition of the filters, manage schedules and consult the operating history.

Remote maintenance

Previa autorización, tu instalador de confianza podrá acceder al equipo para realizar el mantenimiento necesario para un funcionamiento óptimo de tu equipo.

Maximum comfort

Automatic adjustment of the ventilation system based on your needs, alert notifications and voice access.

And all of this with the peace of mind that comes from having maximum security in the cloud.

Moreover, if you're an installer and you want to administer or maintain a large number of installations, look no further. With ConnectAir®, you can easily manage several devices remotely.

Use S&P's IoT to maximise the value of your connected products.

Discover a new world of connectivity in Ventilation Systems.

Don't worry if you don't have your mobile phone to hand, as you can do everything you need with your Voice Assistant.
