

Deliver Cyber Essentials Certification to your customers in 24 hours

## What is Cyber Essentials?

**Cyber Essentials is a government-backed certification that ensures companies are practicing good cyber hygiene. It was developed by the NCSC and its sole purpose is to provide an effective and affordable protection against cybercrime.**

Getting Cyber Essentials certified protects your business against 99.3% of threats and demonstrates that you are taking security and the protection of your clients' data seriously.

### Continuous Compliance

Just getting certified is not enough, a business needs to be in a position where their compliance status is monitored, this is the only way they will benefit from the 99.3% protection the Cyber Essentials framework offers.

CyberSmart have an endpoint application which makes continuous monitoring easy and painless. As well as offering businesses some further handy features.

### 5 Cyber Essentials Fundamentals:

- Firewalls
- Patch management
- Malware protection
- Access control
- Secure configuration

### Key Features:

- Certification within 24 hours
- 100% guaranteed pass rate
- Smart platform checks to ensure a pass before submission
- Live support, guiding users through the questionnaire step-by-step if needed
