

Keep mailboxes clean and lean

Heimdal Email Security Advanced

Heimdal Email Security Advanced will keep mailboxes clean and lean.

55% of all incoming emails to an organisation are spam. Spam emails flood inboxes, diminish productivity and bring a host of cybersecurity dangers like malware, ransomware and phishing.

Features and Benefits:

- Simple setup utilising MX Records
- Highly accurate spam filtering
- Botnet and advanced malware protection
- DKIM/SPF & DMARC sender check
- Comprehensive threat alerts with ability to customise
- Both deep attachment scanning and deep content scanning
- Forensic level data logging of emails
- Optional Microsoft 365 integration
- 90 days email relay included as standard
- Full audit log
- ISO27001 and SOC2 Certified Hosting

91%

of cyber-attacks start with a phishing email

90%

of data breaches are a result of phishing

76%

of businesses have reported being a victim of a successful phishing attack in the last year
