## Trail Rules And What They Really Mean

Hey gang,

Some people think mother nature has no rules but they're wrong: she's a mother after all. So it's important for us children to follow some general guidelines. However, trail regulations can be complicated so here's a guide breaking down what these rules really mean.

### **"Yield to Others"**

Real Meaning: If someone is a real speedy walker type, just move to the side and let them pass. Feel free to be nice to their face and then judge them immediately after. It's fun.

### **"Dogs Must Be On-Leash"**

Real Meaning: Dog can be off-leash until you see someone, then just put the leash on the dog until they're out of sight. Then take it off again.

### **"No Alcoholic Beverages"**

Real Meaning: Drink as much as you want, just don't leave your empty White Claws or whatever on the trail.

### **"No Fishing"**

Real Meaning: You probably won't catch anything worthwhile and if you do it's probably gross.

### **"Stay On The Trail"**

Real Meaning: Go nuts, but don't blame us if you get lost.

### **"Use of NFS roads or trails for organized commercial events, or organized uncommercial events require a permit unless passing through the area."**

Real meaning: No clue.
