A Wonderful Job Description:
Graduate / Junior Front-End Developer

Agency Overview:

Wonderful is an agency that leads digital transformation in user and customer experiences. Our team of UX designers, strategists, developers, creatives and digital marketers take complex digital problems and deliver Wonderfully simple solutions for some of the world's biggest brands. With clients including KLM Airlines, GE Healthcare, RS Components, Mind, HSBC, Diageo and Dreamland there's plenty of exciting projects to work with.

Wonderful has a culture full of energy and aspiration. With collaboration as a core value, we have built a team that blends skill sets, viewpoints and expertise to deliver the highest standard of work, work that balances creativity and technology through a clear agile, UX framework.

We've worked hard to make sure that those working at Wonderful are part of a team doing meaningful work; we even work from our own coworking space, WonderHub, a place built to inspire innovation and collaboration.

Are you a Wonderful person?

Job Description:

We're looking for a graduate or junior developer with some commercial experience and proven ability to take design prototypes and build outstanding web experiences, as well as maintain our existing sites.

This is a great opportunity to work as part of a passionate design and development team and to work on great projects.

This is a hybrid role, with two days a week in the Maidstone office working with the wider team, and the rest of the week can be remote.

Your responsibilities

- Developing innovative, high quality websites

- Presenting and rationalising your work to our team

- Work both independently and as part of a wider team to deliver on web solutions

Who we're looking for - the "must-haves"

- A love of web, creative technologies and digital innovation

- Demonstrable on-the-job experience in developing websites

- Knowledge of front-end technologies including CSS3, JavaScript, HTML5, and jQuery

- Experience with open source php-based CMS platforms such as WordPress or WooCommerce

- Experience with building out sites from Adobe XD, Sketch or Figma files

- A dedication to coding excellence and continuous personal development

- An ability to work across multiple projects simultaneously

Who we're looking for - the "nice-to-haves"

- Experience utilising NPM and task/build tools such as Webpack or Gulp

- Experience utilising MySQL for database management and migrations

- Experience with using Github for version control and creating pull requests

- Interest in the Vue and Laravel frameworks

Salary

Offering a competitive salary dependent upon experience, ranging from £20,000 to £24,000.

We are looking for people who want to contribute to team development and overall business goals and to grow in their remuneration accordingly.

Benefits

- 23 days holiday per year
- 3 additional volunteering days per year
- Company pension
- £500 training budget per year
- £300 technology budget
- Employee perks scheme including rewards, bonuses, discounts, freebies, health & wellbeing offerings and more
- Regular team events & away days
- Flexible Working policy - 2 days working at The WonderHub, our modern town-centre studio & co-working space, with the remainder remote/from home as you choose.
- Parking allowance
