

A Wonderful Job Description

Role - Freelance Designers

Level - Entry Level/Mid Weight

Employment - Contract

Agency Overview:

Wonderful is an agency that leads digital transformation in user and customer experiences. Our team of UX designers, strategists, developers, creatives and digital marketers take complex digital problems and deliver Wonderfully simple solutions for some of the worlds biggest brands. With clients including KLM Airlines, GE Healthcare, RS Components, Mind, HSBC, Diageo and Dreamland there's plenty of exciting projects to work with.

Wonderful has a culture full of energy and aspiration. With collaboration as a core value, we have built a team that blends skill sets, viewpoints and expertise to deliver the highest standard of work, work that balances creativity and technology through a clear agile, UX framework. We've worked hard to make sure that those working at Wonderful are part of a team doing meaningful work; we even work from our own coworking space, WonderHub, a place built to inspire innovation and collaboration.

Are you a Wonderful person?

Who We're Looking For

We are looking for great freelance midweight UX / UI designers to work with our in-house team on a range of projects coming up. Working under our Creative Director, we are looking for support from great designers with experience in web app and product design, to work on a range of projects from simple websites through to complex systems.

Our office is based in Maidstone, Kent so ideally you would be able to travel there periodically to engage in workshops etc, but remote working is of course the norm now!

If you have the relevant experience, passion and are generally a Wonderful person please get in touch now!
