		Note! Product picture may differ from actual product			
	Product No.: 99076395				
	Vertical, multistage centrifugal pump with inlet and outlet ports on same the level (inline). The pump head and base are in cast iron				
	– all other wetted parts are in sta	ainless steel. A cartridge shaft seal ensures high reliability, safe handling, and easy access and			
	service. Power transmission is v	ia a rigid split coupling. Pipe connection is via combined ANSI-JIS flanges.			
	The pump is fitted with a 3-phas	e, fan-cooled, permanent-magnet, synchronous motor.			
		I as IE5 in accordance with IEC 60034-30-2.			
	The motor includes a frequency	converter and PI controller in the motor terminal box. This enables continuously variable control of			
	the motor speed, which again er	nables adaptation of the performance to a given requirement.			
	The operating panel on the moto	or terminal box features a four-inch TFT display, push-buttons and the Grundfos Eye indicator.			
		d user-friendly interface to all functions.			
	The push-buttons are used to na	avigate through the menu structure to access pump and performance data on site and enable			
	setting of required setpoint as w	ell as setting of pump to "Min." or "Max." operation or to "Stop".			
	Communication with the nump is	s also possible by means of Grundfos GO Remote (accessory). The remote control enables further			
	settings as well as reading out o	f a number of parameters such as "Actual value", "Speed", "Power input" and total "Power			
	consumption".				
	The Grundfos Eye indicator on t	he operating panel provides visual indication of pump status:			
	"Power on": Motor is runr	ning (rotating green indicator lights) or not running (permanently green indicator lights)			
	 "Warning": Motor is still re 	unning (rotating yellow indicator lights) or has stopped (permanently yellow indicator lights)			
	 "Alarm": Motor has stopp 	ed (flashing red indicator lights).			
		of inputs and outputs enabling the motor to be used in advanced applications where many inputs			
	and outputs are required:				
	two dedicated digital input				
		20 mA, 0-5 V, 0-10 V, 0.5 - 3.5 V; the factory-fitted pressure sensor is connected to one of these			
	inputs	antiameter and concer			
	5 V voltage supply to pote				
	one analog output, 0-10	puts or open-collector outputs			
	 two configurable digital if two Pt100/Pt1000 inputs 	puis or open-collector outputs			
	 LiqTec, dry-running prote 	ction sensor input			
	Grundfos Digital Sensor i				
	 24 V voltage supply for set 	· ·			
	 two signal-relay outputs (
	GENIbus connection	·			
	interface for Grundfos CI	M fieldbus module.			
	Liquid:				
	Pumped liquid:	Water			
	Liquid temperature range:	-4 248 °F			
	Selected liquid temperature:	68 °F			
	Density:	62.29 lb/ft ³			
	Technical:	Technical			
	Pump speed on which pump dat	a are based: 3470 rpm			
	Rated flow:	90.3 US GPM			
	Rated head:	300.9 ft
