	Product No.: 99340742		
	 – all other wetted parts are in sta 	ump with inlet and outlet ports on same the level (inline). The pump head and base are in cast iron ainless steel. A cartridge shaft seal ensures high reliability, safe handling, and easy access and via a rigid split coupling. Pipe connection is via combined DIN-ANSI-JIS flanges.	
	The motor efficiency is classified The motor includes a frequency	e, fan-cooled, permanent-magnet, synchronous motor. d as IE5 in accordance with IEC 60034-30-2. converter and PI controller in the motor terminal box. This enables continuously variable control of	
	the motor speed, which again enables adaptation of the performance to a given requirement. The operating panel on the motor terminal box features a four-inch TFT display, push-buttons and the Grundfos Eye indicator.		
	The display gives an intuitive and user-friendly interface to all functions. The push-buttons are used to navigate through the menu structure to access pump and performance data on site and enable setting of required setpoint as well as setting of pump to "Min." or "Max." operation or to "Stop".		
	Communication with the pump is also possible by means of Grundfos GO Remote (accessory). The remote control enables fu settings as well as reading out of a number of parameters such as "Actual value", "Speed", "Power input" and total "Power consumption".		
	 The Grundfos Eye indicator on the operating panel provides visual indication of pump status: "Power on": Motor is running (rotating green indicator lights) or not running (permanently green indicator lights) "Warning": Motor is still running (rotating yellow indicator lights) or has stopped (permanently yellow indicator lights) "Alarm": Motor has stopped (flashing red indicator lights). 		
	The terminal box has a number of inputs and outputs enabling the motor to be used in advanced applications where many inputs and outputs are required:		
	 two dedicated digital inputs three analog inputs, 0(4)-20 mA, 0-5 V, 0-10 V, 0.5 - 3.5 V; the factory-fitted pressure sensor is connected to one of these inputs 		
	 5 V voltage supply to potentiometer and sensor one analog output, 0-10 V, 0(4)-20 mA 		
	 one analog output, 0-10 V, 0(4)-20 mA two configurable digital inputs or open-collector outputs two Pt100/Pt1000 inputs LiqTec, dry-running protection sensor input 		
	Grundfos Digital Sensor	input and output	
	 24 V voltage supply for s two signal-relay outputs 		
	GENIbus connection		
	interface for Grundfos CI	M fieldbus module.	
	Liquid:		
	Pumped liquid:	Water	
	Liquid temperature range: Selected liquid temperature:	-4 248 °F 68 °F	
	Density:	62.29 lb/ft ³	
	Technical:		
	Pump speed on which pump da	ta are based: 3484 rpm	
	Rated flow:	9.69 US GPM	
	Rated head: Pump orientation:	190.6 ft Vertical	
	Shaft seal arrangement:	Single	
	Code for shaft seal:	HQQE	
	Approvals:		
	Approvals for drinking water: Curve tolerance:	NSF/ANSI 61 ISO9906:2012 3B	
	Materials:
