| | |
| | Note! Product picture may differ from actual product |
| Product No.: 99391836 | |
| – all other wetted parts are in st | oump with inlet and outlet ports on same the level (inline). The pump head and base are in cast iron tainless steel. A cartridge shaft seal ensures high reliability, safe handling, and easy access and via a rigid split coupling. Pipe connection is via combined DIN-ANSI-JIS flanges. |
| The motor efficiency is classifie The motor includes a frequency | se, fan-cooled, permanent-magnet, synchronous motor. d as IE5 in accordance with IEC 60034-30-2. / converter and PI controller in the motor terminal box. This enables continuously variable control of pables adaptation of the performance to a given requirement. |
| | nables adaptation of the performance to a given requirement. or terminal box features a four-inch TFT display, push-buttons and the Grundfos Eye indicator. |
| The display gives an intuitive a | nd user-friendly interface to all functions. |
| The push-buttons are used to n | avigate through the menu structure to access pump and performance data on site and enable vell as setting of pump to "Min." or "Max." operation or to "Stop". |
| Communication with the pump settings as well as reading out of consumption". | is also possible by means of Grundfos GO Remote (accessory). The remote control enables further of a number of parameters such as "Actual value", "Speed", "Power input" and total "Power |
| "Power on": Motor is run "Warning": Motor is still | the operating panel provides visual indication of pump status: ning (rotating green indicator lights) or not running (permanently green indicator lights) running (rotating yellow indicator lights) or has stopped (permanently yellow indicator lights) oed (flashing red indicator lights). |
| The terminal box has a number and outputs are required: | of inputs and outputs enabling the motor to be used in advanced applications where many inputs |
| two dedicated digital inp three analog inputs, 0(4) inputs | us)-20 mA, 0-5 V, 0-10 V, 0.5 - 3.5 V; the factory-fitted pressure sensor is connected to one of these |
| 5 V voltage supply to po one analog output, 0-10 | |
| | nputs or open-collector outputs |
| LiqTec, dry-running prot | ection sensor input |
| Grundfos Digital Sensor 24 V voltage supply for s | |
| two signal-relay outputs | |
| GENIbus connection interface for Grundfos C | IM fieldbus module. |
