- all other wetted parts are in st	pump with inlet and outlet ports on same the level (inline). The pump head and base are in cast iron tainless steel. A cartridge shaft seal ensures high reliability, safe handling, and easy access and via a rigid split coupling. Pipe connection is via oval flanges with internal NPT threads.		
The motor efficiency is classifie The motor includes a frequency the motor speed, which again e	se, fan-cooled, permanent-magnet, synchronous motor. ed as IE5 in accordance with IEC 60034-30-2. y converter and PI controller in the motor terminal box. This enables continuously variable control of enables adaptation of the performance to a given requirement. tor terminal box features a four-inch TFT display, push-buttons and the Grundfos Eye indicator.		
The display gives an intuitive ar The push-buttons are used to n	nd user-friendly interface to all functions. havigate through the menu structure to access pump and performance data on site and enable vell as setting of pump to "Min." or "Max." operation or to "Stop".		
Communication with the pump i settings as well as reading out o consumption".	is also possible by means of Grundfos GO Remote (accessory). The remote control enables further of a number of parameters such as "Actual value", "Speed", "Power input" and total "Power		
<ul> <li>"Power on": Motor is run</li> <li>"Warning": Motor is still i</li> <li>"Alarm": Motor has stopp</li> </ul>	the operating panel provides visual indication of pump status: nning (rotating green indicator lights) or not running (permanently green indicator lights) running (rotating yellow indicator lights) or has stopped (permanently yellow indicator lights) ped (flashing red indicator lights).		
The terminal box has a number of inputs and outputs enabling the motor to be used in advanced applications where many inputs and outputs are required:			
<ul> <li>two dedicated digital inp</li> <li>three analog inputs, 0(4) inputs</li> </ul>	outs )-20 mA, 0-5 V, 0-10 V, 0.5 - 3.5 V; the factory-fitted pressure sensor is connected to one of these
