1	CRIE 20-5 N-CA-A-E-HQQE							
	Product No.: 99076426	Note! Product picture may differ from actual product						
	Vertical, multistage centrifugal pump with inlet and outlet ports on same the level (inline). Pump materials in contact with the liquid are in stainless steel. A cartridge shaft seal ensures high reliability, safe handling, and easy access and service. Power transmission is via a rigid split coupling. Pipe connection is via FlexiClamps.							
	The motor efficiency is classified The motor includes a frequency	e, fan-cooled, permanent-magnet, synchronous motor. I as IE5 in accordance with IEC 60034-30-2. converter and PI controller in the motor terminal box. This enables continuously variable control of						
		nables adaptation of the performance to a given requirement. or terminal box features a four-inch TFT display, push-buttons and the Grundfos Eye indicator.						
	The push-buttons are used to na	d user-friendly interface to all functions. avigate through the menu structure to access pump and performance data on site and enable ell as setting of pump to "Min." or "Max." operation or to "Stop".						
	Communication with the pump is also possible by means of Grundfos GO Remote (accessory). The remote control enables further settings as well as reading out of a number of parameters such as "Actual value", "Speed", "Power input" and total "Power consumption".							
	 The Grundfos Eye indicator on the operating panel provides visual indication of pump status: "Power on": Motor is running (rotating green indicator lights) or not running (permanently green indicator lights) "Warning": Motor is still running (rotating yellow indicator lights) or has stopped (permanently yellow indicator lights) "Alarm": Motor has stopped (flashing red indicator lights). 							
	 The terminal box has a number of inputs and outputs enabling the motor to be used in advanced applications where many input and outputs are required: two dedicated digital inputs three analog inputs, 0(4)-20 mA, 0-5 V, 0-10 V, 0.5 - 3.5 V; the factory-fitted pressure sensor is connected to one of thes inputs 5 V voltage supply to potentiometer and sensor one analog output, 0-10 V, 0(4)-20 mA two configurable digital inputs or open-collector outputs two Pt100/Pt1000 inputs LiqTec, dry-running protection sensor input Grundfos Digital Sensor input and output 24 V voltage supply for sensors 							
	 two signal-relay outputs (potential-free contacts) GENIbus connection 							
	interface for Grundfos CI	M fieldbus module.						
	Liquid:	14/						
	Pumped liquid: Liquid temperature range:	Water -4 248 °F						
	Selected liquid temperature:	68 °F						
	Density:	62.29 lb/ft ³						
	Technical: Pump speed on which pump data are based: 3444 rpm Rated flow: 111 US GPM							
	Rated head:	268.7 ft						
	Actual impeller diameter: Pump orientation:	4.13 in Vertical						
	Shaft seal arrangement:	Single						
	Code for shaft seal:	HQQE						
	Approvals:	CURUS						
	Approvals for drinking water:	NSF/ANSI 61						
	Curve tolerance:	ISO9906:2012 3B
