Product No.: 99392129		
Vertical, multistage centrifugal pump with inlet and outlet ports on same the level (inline). Pump materials in contact with the liquid are in stainless steel. A cartridge shaft seal ensures high reliability, safe handling, and easy access and service. Power transmission is via a rigid split coupling. Pipe connection is via FlexiClamps.		
The pump is fitted with a 3-phase, fan-cooled, permanent-magnet, synchronous motor.		
The motor includes a frequency of	as IE5 in accordance with IEC 60034-30-2. converter and PI controller in the motor terminal box. This enables continuously variable control of ables adaptation of the performance to a given requirement.	
	r terminal box features a four-inch TFT display, push-buttons and the Grundfos Eye indicator.	
The display gives an intuitive and	d user-friendly interface to all functions.	
The push-buttons are used to na	vigate through the menu structure to access pump and performance data on site and enable Il as setting of pump to "Min." or "Max." operation or to "Stop".	
Communication with the pump is settings as well as reading out of consumption".	also possible by means of Grundfos GO Remote (accessory). The remote control enables further a number of parameters such as "Actual value", "Speed", "Power input" and total "Power	
The Grundfos Eve indicator on th	e operating panel provides visual indication of pump status:	
 "Power on": Motor is runn 	ing (rotating green indicator lights) or not running (permanently green indicator lights)	
	nning (rotating yellow indicator lights) or has stopped (permanently yellow indicator lights) ed (flashing red indicator lights).	
	of inputs and outputs enabling the motor to be used in advanced applications where many inputs	
 two dedicated digital input three appled inputs 0(4) f 	ts 20 mA, 0-5 V, 0-10 V, 0.5 - 3.5 V; the factory-fitted pressure sensor is connected to one of these	
inputs	20 mA, 0-5 V, 0-10 V, 0.5 - 5.5 V, the factory-litted pressure sensor is connected to one of these
