

ACTIFIO DATABASE CLONING
APPLIANCE (DCA) POWERED
BY DELL TECHNOLOGIES

80% of organizations
view digital transformation as their
most strategic IT initiative

yet the size and complexity of enterprise data –
powered by SAP, Oracle, MS SQL Server
databases – and the manual operations
supporting it delays app development and test
as well as more agile use of cloud.

ACTIFIO DCA
DELIVERS

INSTANTLY CREATE

virtual read/write copies of
multi-TB databases
on-premises or in any cloud

*Accelerate access to copies
for faster application
development*

REDUCE PROVISIONING
AND REFRESH TIME

via self-service access
of virtual copies

*Compress test data access
times from days to minutes,
accelerate DevOps*

VIRTUALIZE
ENTERPRISE DATA

for maximum
infrastructure
efficiency

*Drive 50%+ TCO savings,
transform operations with
hybrid cloud*

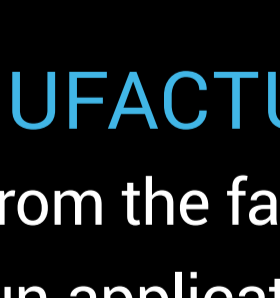

ACTIFIO DCA
TURNKEY
EXPERIENCE

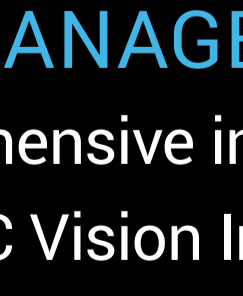

ENGINEERED

Architectural standards, system
design, life cycle management

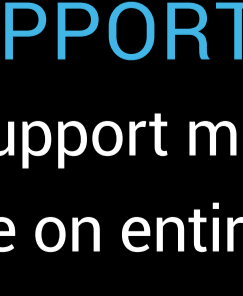

MANUFACTURED

Delivered from the factory ready
to run applications

MANAGED

Comprehensive insight via
Dell EMC Vision Intelligent
Operations software

SUPPORTED

Single support model with
expertise on entire system
