

CAROLIN DIAZ

Kind | Driven | Adaptable | Proactive | Creative

EXPERIENCE

Software Engineer, Resilient Coders, Boston, MA | Jul- Dec 2020

- Develop team-building skills by working in groups to complete a variety of projects on a weekly basis
- Strengthen time management skills that allow me to work in a fast-paced agile environment with tight deadlines
- Landed a client freelancing to build a responsive website that displayed the services provided and more general information about their product.
- Build over 40+ projects including Flip Card memory game, Tic-Tac-Toe multiplayer game, Roulette betting game, full-stack Beyonce fan page, full-stack Journaling page, etc.
- Created a full-stack app that provides the immigrant community in MA with access to updated information and resources regarding their immigration process. The application has both a client and a user side.

Software Engineer, G|Code, Boston, MA | Feb-Apr 2020

- Participated in a 12-week program focused on introducing students to the fundamentals of coding
- Completed small projects that reflected my learning progress
- Created and presented an About Me page to multiple stakeholders that highlighted all of the knowledge gained throughout the program

College Access Advisor, Bottom Line, Boston, MA | Jul 18 - Jun 20

- Tracked student progress through quantitative and qualitative measures through the use of Salesforce
- Maintained relationships with guidance counselors, community organization partners, and local universities to maximize support systems for students
- Led a variety of projects such as Next Generation Leaders Program, Jack Connors Scholarship, Say Yes to Prom Event!, Bottom Line T-Shirt designs, and Community Conversations Event
