FINDING NEUTRAL WITH AT-HOME OFFICE EQUIPMENT AND SUPPLIES

Eyes

Use flat, sturdy boxes or books to raise the height of laptop/monitor. Top of laptop screen or top 1/3 of monitor screen should meet eye level.

Phone

Use a headset or other hands-free option. Ensure a good fit.

Mouse

Use external mouse and keep adjacent to keyboard.

Keyboard

Keep wrists straight. Use external keyboard to position at optimal height.

Elbows

Create an approximate 90-degree bend. Use folded towels or blankets to raise seat height if wrists are higher than elbows. Or use flat, sturdy boxes or books to raise the keyboard and mouse devices if wrists are lower than elbows.

Chair Selection

Do not sit on couch or recliner to do work. Find or make back support. Sit all the way back. Keep ears above shoulders and hips.

Feet

Keep thighs parallel to the floor with feet fully supported when seated.

If feet dangle, use sturdy box, books, or reams of paper to keep hips and knees aligned.

If standing, place one foot on footrest to vary position throughout the day.

Remember to take microbreaks: 20-30 seconds every 20-30 minutes to change posture or move
