Emerging Trends for Clinical Leadership

Winter 2020

TRC HEALTHCARE – MONTHLY EXECUTIVE BRIEF

IN THIS ISSUE

Practice-Changing Pharmacy Updates

Consider Strategies for Safe Use of Benzodiazepines

Pain Point: Benzodiazepines will come under even more scrutiny now that FDA is requiring boxed warnings to include abuse, dependence, and withdrawal.

Solution: This month's [Pharmacist's Letter article](#) offers guidance on the importance of having an "exit plan" in mind when patients start a benzo, as well as suggestions for limiting use and which benzos may be more problematic. Learn practical steps to get patient buy-in, plus how to taper successfully.

The editors also updated the accompanying toolbox, *Appropriate Use of Benzodiazepines*, which provides detailed advice on tapering options and how to start difficult conversations with patients.

Newly Authorized Monoclonal Antibodies for COVID-19

Pain Point: New monoclonal antibodies are now authorized to treat outpatients with COVID-19, but operationalizing how to give these IV infusions can be challenging.

Solution: *Hospital Pharmacist's Letter* provides [recommendations](#) for the new monoclonal antibodies, bamlanivimab and the casirivimab/imdevimab combo product, including potential benefits and limitations, and what to tell patients, based on the most recent evidence available.

The updated "[Treatments of Interest for COVID-19](#)" chart now includes resources on other pharmacotherapies, steroids, vitamins/supplements, EUA specifics, and more.

TRC is committed to supporting clinical teams during the pandemic. All of our existing and emerging COVID-19-related clinical resources and articles are available in our [COVID-19 Resource Hub](#) (complimentary access, no subscription required).

News You Need to Know

Insights delivers the latest in emerging trends for clinical leadership straight to your inbox. Included in each monthly edition, you'll receive industry-relevant updates, timely new facts, and advice to help you and your pharmacy teams leverage the most from your TRC Healthcare subscriptions. You'll also see the latest CE courses added to our course catalog, as well as important national and state requirements to keep you and your staff in compliance.

Contact us anytime for more information. Visit trchealthcare.com, or [email us](#).

Pharmacy Technician Opportunity to Give Vaccines

Pain Point: New HHS guidance authorizes qualified pharmacy technicians to administer childhood immunizations and COVID-19 vaccines. This is great news, but pharmacies face the challenge of getting techs trained and ready to administer vaccines, with the goal of offsetting a drop in pediatric vaccination rates and meeting potential increased demand for COVID-19 vaccines.

Solution: *Pharmacy Technician's Letter* [explains why this is a big opportunity for technicians](#) and encourages getting involved with vaccine administration to advance the profession and help the community. Learn more about the requirements technicians will need to meet and how the upcoming *PTU Elite: Immunizations* program can help them achieve that goal with confidence (more info below).

Product Spotlight

PTU Elite: Immunizations

Coming soon: a training program that empowers technicians to confidently administer vaccines

The upcoming *PTU Elite: Immunizations* program will efficiently prep technicians to safely and confidently administer vaccines.

Available for purchase as a stand-alone offering, the *PTU Elite: Immunizations* program will provide engaging and dynamic online lessons to help technicians meet state requirements, plus the option to tailor it with organizational policies and procedures. In addition to vaccine administration training, the program will include content on scheduling, billing, and follow-up: a well-rounded approach to building and maintaining a high-quality immunization program at your organization.

This new technician-specific offering is the perfect complement to *Pharmacy Technicians University*, a best-in-class online education and training program for pharmacy technicians.

PTU Elite: Immunization Program benefits include:

- **Go beyond the workbook:** Lessons and quizzes are presented as interactive, realistic workflow scenarios, allowing for easy translation of skills into practical application.
- **Provide a 360-degree view:** Emphasizes the importance of quality and efficiency in both vaccine administration AND administrative tasks like billing and scheduling.
- **Support career development:** Building technicians' confidence reduces turnover and improves job satisfaction.

Learn more about this and other *PTU Elite* offerings [here](#).

NEW IN THE COVID-19 RESOURCE HUB

Our editors continue to add new articles and clinical resources to the COVID-19 Resource Hub. Access to the hub is free – no subscription required. Recent additions and updates include:

- COVID-19 Vaccines
- Baricitinib for Hospitalized COVID-19 Patients
- COVID-19 Point-of-Care Testing
- Treatments of Interest for COVID-19
- What to Tell Patients About Vitamin D
- Remdesivir and Steroids
- Webinar: COVID-19 Antibody Testing

[Visit the COVID-19 Resource Hub](#)

Upcoming Articles Preview

Here's what's coming up in January issues of the *Letters*:

Pharmacist's Letter: Omega-3 fatty acid supplements for CV risk; new drug *Plenity* for weight loss

Prescriber's Letter: Managing sexual side effects from antidepressants; adjusting meds due to liver impairment

Pharmacy Technician's Letter: Preventing issues with "on-hold" Rxs; how math anxiety can cause med errors

Hospital Pharmacist's Letter: Baricitinib authorization for hospitalized COVID patients; new IV opioid oliceridine

Continuing Education

TRC's accredited learning center for medication management offers **continuing education in 13 categories**, including:

- Disease State Management / Drug Therapy
- HIV / AIDS
- Law
- General Pharmacy
- Patient Safety / Medication Errors
- Archived Webinars
- Competency
- Compliance
- Hospital / Specialty
- Preceptor
- Training
- Immunization
- Compounding

Stay on top of certification, license, and continuing education renewal periods and associated hours required for your state. Make note of the states below that have renewal periods in the current/coming months, as well as ongoing state and national requirements. View details for each state, as well as a list of associated continuing education courses available to meet requirements [here](#).
