

RELEASE NOTES

Create a Visit

Summary

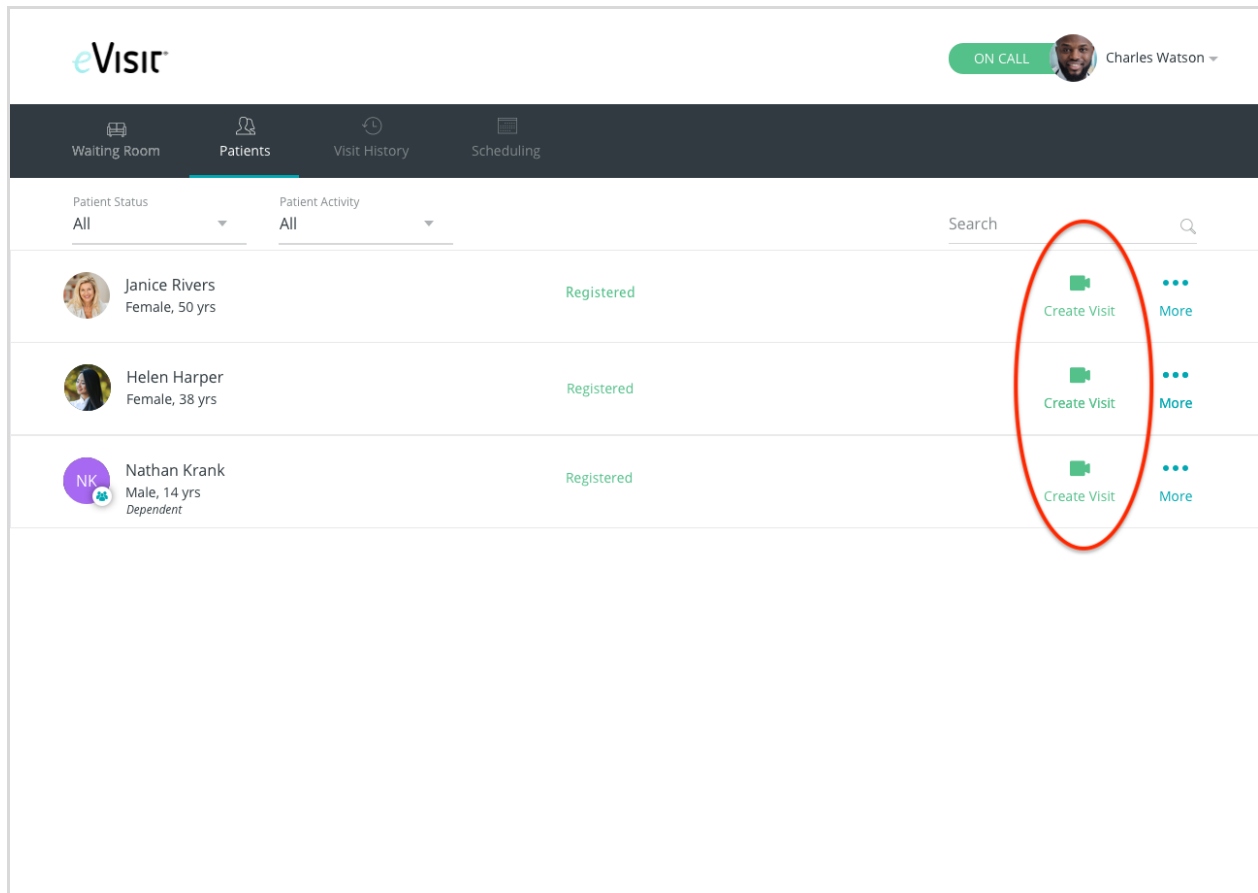

Create a Visit is a new feature that allows office staff the ability to start an instant visit with any existing patient on the platform. The patient gets a text and email with the link to join and with a simple click they can agree to the terms and join the visit with no login required. The staff and provider can then utilize all of eVisits Waiting Room and Visit functionality that aren't available in ExpressVisits.

Problems Solved

- Reduced provider wait-time from the patient running behind schedule due to intake and other tasks that they forgot to do before the visit.
- Need to quickly launch a visit with an existing patient at any time.
- All the benefits of the ExpressVisit quick-entry workflow combined with eVisit's many other features including waiting room, charting, reporting and others.

Feature Overview

This feature allows anyone in a practice to create a visit with an existing patient in eVisit. After the visit is created, the patient will be immediately invited via text message and email.

The screenshot displays the eVisit web application interface. At the top, the 'eVisit' logo is on the left, and a user profile for 'Charles Watson' with an 'ON CALL' status is on the right. Below the header is a navigation bar with four tabs: 'Waiting Room', 'Patients' (which is selected), 'Visit History', and 'Scheduling'. The main content area shows a list of patients. Above the list are two dropdown menus for 'Patient Status' and 'Patient Activity', both set to 'All', and a search bar. The patient list contains three entries: Janice Rivers (Female, 50 yrs), Helen Harper (Female, 38 yrs), and Nathan Krank (Male, 14 yrs, Dependent). Each entry has a 'Registered' status and a 'Create Visit' button, which is highlighted by a red circle. A 'More' link is also present for each patient entry.

Patient Status	Patient Activity	Search
All	All	
Janice Rivers Female, 50 yrs	Registered	Create Visit More
Helen Harper Female, 38 yrs	Registered	Create Visit More
Nathan Krank Male, 14 yrs Dependent	Registered	Create Visit More
