

RELEASE NOTES

Current Practice Name In Header

Summary

To make our app more accessible and easier to use, we are adding the Practice Name to the header of the web app. This will eliminate the confusion of what practice users are in when they belong to multiple practices.

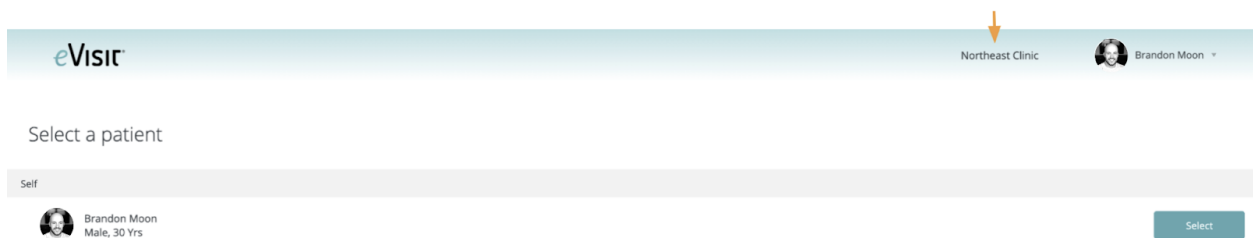

Feature Overview

Whenever a user logs in on the web app, the name of the current practice the user is in will display.

Provider View:

Patient View:

How to get started

This feature will be enabled automatically with the release.
