Re: Declaration of Force Majeure

Dear Customer:

We regret to inform you that, due to our inability to obtain both suitable and sufficient raw materials as well as their uncertain supply outlook in the coming months, Evonik has no alternative but to declare Force Majeure on Ancamine® TETA and Ancamine® TEPA products.

At this time, we do not have the ability to predict the length of the Force Majeure. Please be assured that we are making all reasonable efforts to limit the duration. We will make every effort to communicate the changing status of this situation with you as soon as more information is available.

We sincerely apologize for any inconvenience. Should you have any questions regarding this temporary situation, please contact your account manager.

Very truly yours,

John Duggan
Crosslinkers Americas – Vice President
