Dear Valued Castrol Customer –

Due to supply constraints, we will be servicing our pail business with a different color pail. As a result, you may receive Castrol products in the standard green pail or a black pail. These pails will still carry the same Castrol label and will meet our structural and product quality standards.

If you have any concerns, please reach out to me.

Thank you for your patience and your continued support,

Greg Davidson
BP Lubricants USA Inc.
