Momentive Part #9324 - RTV118 12T-Tube (0.770LBS-0.350KG)

Dear Valued Customer:

Momentive Performance Materials has identified your facility as a possible purchasing location of one or more of the products listed above. Please forward this notification to any other appropriate personnel and/or locations within your company that you feel should be notified. Distributors, please forward this notification to your customers of these materials.

In August, 2021, we communicated a supply disruption with the aluminum tube used to package our 10.3 fl. oz., 12T grades listed above. At that time, we expected this challenge to persist until 2Q 2022. Unfortunately, our tube supplier recently announced they have permanently discontinued the production of this tube.

In light of this news, we have made the difficult decision to discontinue the sale of the items listed above. We currently offer alternate package sizes for each grade. See the chart below. If they are suitable for your application, please work with your customer service representative to place orders against one of these products. Please communicate if these containers are not appropriate for your application and we can cancel your existing 12T tube order(s).

Please note that you will not see any RTV112 grades listed below. We recently communicated the discontinuation of RTV112 in a separate notification. We have other product options for customers of RTV112. Please reach out to your Momentive sales representative for additional information.

Recommended Alternative Grades:

Material #	Grade
37924	RTV102 12T-Tube (0.770 Lbs-0.35 Kg)
11883	RTV102 3TG-Tube (0.198LBS-0.090KG)
