Subject: Product Notification – Raw Material Source Update

Grades Impacted: RTV21, RTV31, RTV60, RTV88, RTV560, RTV560-XB, RTV566, RTV8262

Dear Valued Customer:

Momentive Performance Materials has identified your facility as a possible purchasing location of the products listed above. Please forward this notification to any other appropriate personnel and/or locations within your company that you feel should be notified. Distributors, please forward this notification to your customers of the grades listed above.

This letter is to inform you that one of our sources of red iron oxide filler used to formulate the grades listed above has relocated their production to a new manufacturing site. Momentive will continue to source filler from this supplier. We will continue to meet all test specifications currently reported in our certificate of analysis.

Effective immediately, for all materials except RTV566, we will begin production using the new source of filler interchangeably with our current sources of red iron oxide. For RTV566, we will continue to utilize previous lots of filler as we continue validating the use of this new manufacturing site.

With the exception of this change, the grades listed above will be manufactured using the same material inputs, from the same sources of supply, according to the same base formulations, in the same production location and equipment.

If you have questions, please contact your local Momentive sales representative. Alternatively, you can reach me by email at thomas.stemper@momentive.com.

We look forward to working with you and continuing to service your needs.

Sincerely,

Thomas Stemper
Product Manager – Americas

ANY SALE OF PRODUCTS OR DELIVERY OF CUSTOMER SUPPORT AND ADVICE BY MOMENTIVE PERFORMANCE MATERIALS INC. AND/OR ITS AFFILIATES ("MOMENTIVE") IS MADE EXCLUSIVELY UNDER MOMENTIVE'S STANDARD CONDITIONS OF SALE which are included in the applicable sales agreements, printed on the back of acknowledgments and invoices, or available upon request. MOMENTIVE MAKES NO WARRANTY, EXPRESS OR IMPLIED, WITH RESPECT TO THE PERFORMANCE, SUITABILITY OR FITNESS FOR INTENDED USE OF ITS PRODUCTS IN ANY CUSTOMER'S APPLICATION. Each customer should determine the suitability of Momentive's materials for the customer's particular use through appropriate testing and analysis.
