

**SUPERIOR ENGINEERED MATERIALS.
IMPECCABLE SUPPORT.**

Dear GracoRoberts customer,

We have been notified that Henkel is facing a force majeure event effective immediately from one of its suppliers that will impact its ability to supply select products within published lead times.

Our records indicate that you have an open order *or* have purchased one or more of the products listed below that are affected by this temporary material shortage.

[Click here for LOCTITE® AERO product list](#)

[Click here for Industrial Electronics product list](#)

We ask for your patience as we work to secure and allocate all available product. We will continue to fill open orders and accept new orders in the interim, but cannot guarantee requested quantities or delivery dates, and will ship partial quantities if need be as product becomes available.

The GracoRoberts team is doing everything within our abilities to ensure that the critical materials needs of our valued customers are being met; however, Henkel does not know when they will be able to resume normal production and supply of these materials.

We will continue to provide email updates regarding this material shortage as it becomes available and will post all manufacturer notifications in our [Supply Chain Disruption Knowledge Center](#).

Thank you for your continued business with GracoRoberts.

Kind Regards,

Thomas Gotthold

Corporate Purchasing Manager
