

**To:** All Resin Formulators Customers  
**Re:** **2021 Resin Formulators Pricing Updates**

For more than six decades, Resin Formulators has been honored to be your go-to source for highly formulated custom epoxies and urethanes.

The unprecedented market dynamics that we are all facing, including the rising costs across the entire global supply chain, continue to disrupt the production and delivery of raw materials. These factors have resulted in increased costs and production disruptions for Resin Formulators. Despite our best efforts, we are unable to mitigate or absorb these costs without jeopardizing product availability to the marketplace.

As a result, we must continue to adjust pricing on all products within our brand portfolio. We are confident that our pricing remains competitive in the market and our value proposition remains consistent.

We appreciate your continued business and strive to maintain the highest levels of quality and efficiency for the Resin Formulators brand. If you have any questions, please reach out to our Customer Service team or your Technical Account Manager for further information.
