Audiences can choose to get stuck in and be part of the action or use this as the perfect time to sit back and be entertained. Either way, The Lockdown Dine In is a unique chance for audiences to immerse themselves in a virtual evening of delicious food, family fun quizzing and live entertainment.

It's the perfect hour of escapism, perfect alternative night in and an ideal format for virtual awards, team building and inclusive fun!

THE RECIPE

Interactive fun and live entertainment, all in the best taste... literally.

Ahead of the live stream, the invited guests will be given three simple courses to prepare (or even have delivered ready-made), along with suggested wines and other beverages that pair with them.

Between courses is where the fun happens!

The housebound host guides the audience through the preparation of their courses (which have been designed for easy preparation and to be paired with a special beverage) to be perfectly timed with the entertainment – which is to be enjoyed during each meal and includes:

Interplay between the host and your spokesperson

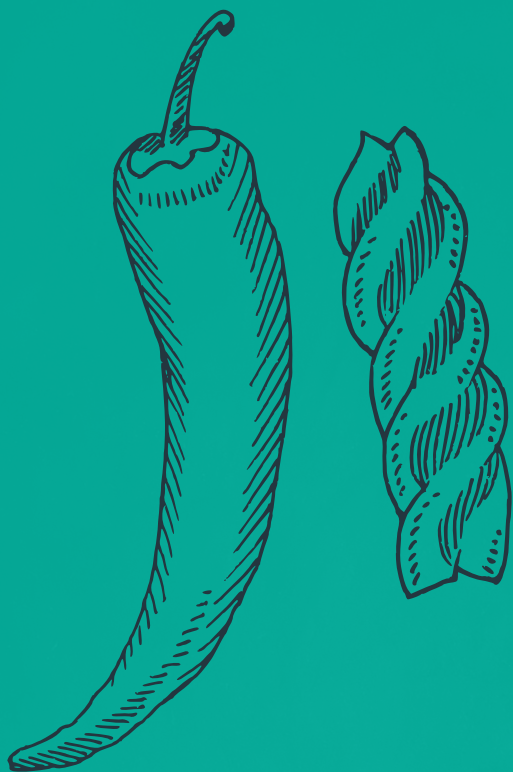

The quiz, which is totally bespoke and optionally themed to your industry and can be hosted by a celebrity quizmaster. The audience can submit their answers via the portal and the winner will be revealed at the end of the show and will win a prize sent to their home.

Variety entertainment, specifically selected to allow for virtual interplay with the audience.

A virtual handover to the food and drink specialist who talks the audience through the pairings and food prep.

Throughout the experience, the audience are encouraged to tweet photos of their food and drink, to be highlighted throughout the show by the host – The most inventive effort will be selected by the celebrity guest for the interactive entertainment section and also wins a prize!
