

JOB DESCRIPTION

JavaScript Engineer?

Title: JavaScript Engineer
Department: Digital
Based: UK – remote working will be considered
Reporting to: Head of Development

REMUNERATION

Agreed as per contract of employment.

Bonus & pension contribution scheme as outlined in your contract of employment.

PURPOSE

Work with the digital team to create cutting edge digital solutions for exciting high profile clients like EE, Jaguar Land Rover, Sainsbury's, Lloyds Banking Group.

Play a part in the direction of the JavaScript team, using your technical expertise and experience to guide and develop best practice and improve efficiency and quality. Keep your finger on the pulse and identify new technologies and concepts that will benefit the department.

Share your skills with other team members and take responsibility for their technical development.

PRINCIPLE DUTIES

- Develop digital applications using JavaScript / TypeScript
- Lead JavaScript development on medium and large projects
- Create technical requirements from client briefs
- Provide consultancy and innovative solutions to problems
- Contribute to the direction of the JavaScript team
- Mentor less experience team members

SKILLS, QUALIFICATIONS & EXPERIENCE

- Writing clean, performant JavaScript and TypeScript, primarily using React
- Creating mobile first, responsive, cross-browser experiences, with a focus on performance
- Creating cross platform, native applications for mobile devices with React Native
- Familiarity with other JavaScript libraries such as ThreeJS
- Experience writing tests for your code with frameworks like Jest
- Experience with CSS pre-processors such as Less and Sass
- Experience of tooling such as Webpack, Babel
- Comfortable using version control (Git)
- Experience working in a similar position

CHARACTERISTICS

- Passionate about creating cool digital things
- Can work well in a team
- Willingness to learn new skills and develop professionally to help further the team
- Positive attitude towards challenging situations and multi-tasking
- Good time management skills involving the ability to estimate accurately the time required to complete digital projects
- Attention to detail and pride in your work
- Good interpersonal skills with the ability to work and communicate with and translate digital solutions to non-IT personnel
- Must be committed to making 'anything possible' with a 'can do' attitude

OTHER REQUIREMENTS

- A full clean drivers license is essential as part of this role, it is your responsibility to ensure your insurance provides 'Business use' in order to claim mileage

DATA SECURITY & GDPR

At all times you must work within the guidelines set out in the **DRPG** Information Security Policy and your Employee Confidentiality Agreement. Failure to do so will be deemed as gross misconduct.

HEALTH & SAFETY

At all times you must work within the guidelines set out in **DRPG's** Health & Safety Policy and Employee Manual.

FURTHER NOTES

The role will be UK based and may require travel to office locations around the UK. There will be times when this role will require you to work from the company's other offices. You will be expected to work flexibly and undertake other related commercial duties both in the UK and overseas as the company may from time to time reasonably require.

At all times you must work within the guidelines set out in **DRPG's** Health & Safety Policy and Employee Manual.

THE COMPANY
