

# WE'RE HIRING

## VALUATION PROFESSIONAL

**Brinker Simpson continues to prosper and grow! We are currently seeking to add a Valuation Professional to our exceptional team.** Building the best team in the marketplace and rendering world-class service to our clients are cornerstones of our success. We know our clients have many choices in service providers, and we work hard every day to justify their choice of Brinker Simpson.

At Brinker Simpson, we will help you utilize your accounting knowledge and continue to improve your professional skills. We offer training in technical skills, soft skills, advisory skills, numerous client industries, and ongoing mentoring and coaching. Your performance will be evaluated based on the quality of your work, the application of your accounting knowledge, and the ability to provide excellent client service. We offer a flexible and supportive culture to ensure that you can make a difference and enjoy a strong work/life balance.

### RESPONSIBILITIES

At Brinker Simpson, you will have the opportunity to provide value-added business advisory services to clients and support our audit and tax clients' valuation needs. This opportunity offers a mixture of business valuations, analysis of financial statements, industry research, and offers a potential management opportunity at one of the regions leading CPA firms. This position will serve as a key member of the Business Advisory team and reports to the Partner leading the group, with high visibility to all leadership team members.

- Lead and grow our advisory business.
- Ability to write Business Valuation reports.
- Identify target clients; build relationships; conduct business meetings; identify and explore needs, present solutions, negotiate terms, and secure profitable advisory projects.
- Provide high-quality services to sophisticated entrepreneurial business and their owners.
- Understand valuation drivers and provide guidance to support growing companies.
- Devise and implement strategies and advise clients regarding the impact of those strategies.
- Train and develop other members of the advisory team.

### QUALIFICATIONS

- The ideal candidate will have three to five years of experience in preparing business valuations.
- Experience sourcing, managing, and executing business valuations;
- Strong quantitative and analytical skills, including financial modeling and valuation.
- Detail-oriented, well-organized, and enjoys solving complex problems.
- Strong interpersonal and presentation skills, along with the ability to communicate effectively with others cross-functionally and at all levels of the organization.
- A self-starter with the ability to exercise independent judgment and critical thinking.
- Ability to manage and prioritize multiple concurrent projects.
- Ability to establish and maintain strong relationships within the organization and with outside service providers and referral sources; and
- Must either have or be close to obtaining a CVA, ABV, or similar valuation related credential.
- Experience writing business valuation reports for both tax purposes and purchase price allocation purposes.
- Experience implementing and overseeing business valuation processes.
- Business Development acumen required, experience preferred.
- Excellent interpersonal skills and team-building skills.
