

COURSE DESCRIPTION

Principles of Earned Value Management (EVM)

LOGISTICS

Duration

1 Day

Delivery

In person, instructor lead

(PCs not required)

Class Size

Up to 15 Students

Prerequisites

None

OVERVIEW

This course introduces students to the basic components of managing projects using earned value management principles.

TARGET AUDIENCE

Anyone who is interested in understanding what Earned Value Management (EVM) is and how to use it to measure program performance. This is an introductory course, and not intended for those who need to implement or operate an EIA 748 compliant system.

LEARNING OBJECTIVES

Upon successful completion of this course, students will be able to:

- Recognize the basic principles and terms used in EVM
- Understand the components of a Performance Measurement Baseline (PMB), including critical path schedule and time-phased resource plan
- Perform basic EV performance calculations and understand how these metrics are used to manage a program

ABOUT PINNACLE

The Leader in IPM Systems Consulting, Training and Support

Founded in 1993, Pinnacle supports a world-wide client base, through a staff of experienced professionals and a network of strategic partners.

Throughout our history we have successfully delivered hundreds of client engagements, helping our clients across all industries improve their organizational performance and deliver better results.

Specializing in enterprise-wide management systems, our core focuses are Enterprise Project Management (EPM), Integrated Program/Project Management (IPM), Earned Value Management (EVM) and Project Portfolio Management (PPM).

We provide a range of value focused and results driven professional services through our four service lines: Management Consulting, Technology Consulting, Training and Organizational Support.
