

MARKET VISIBILITY

HAVE YOU LOST CONTROL OF YOUR ONLINE CHANNEL?

End the surprises!

- Do you know all the websites and marketplaces selling your products?
- Sellers changing prices while you sleep?
- Unknown or unauthorized sellers destroying your Internet resale channels and established relationships?
- Retail partners threatening to pull support of your brand and products?

We relentlessly track millions of sellers on over 100,000 websites and e-commerce marketplaces to give you deep insight into your products online

- 24/7 monitoring delivers actionable intelligence on where your products are being sold online at the UPC and SKU level.
- Track frequency can range from every 15 minutes to once per day depending upon requirements.
- Quickly determine which products' top e-commerce accounts aren't listing from you yet.
- Track inventory by seller, product, ASIN and fulfillment method (Amazon analytics module).
- Visualize price trends over time, per product UPC or style and per sales location.
- Automate reporting so information is always at your fingertips.

TrackStreet

WE'RE INTERNATIONAL. ARE YOU?

Get unparalleled visibility in your primary markets and around the world

International market data, separated by region. Start with US, add Canada, and expand to include worldwide visibility.

Track pricing in localized currency, with the ability to convert and standardize price reporting to any currency you desire at a click of a button.

KNOWLEDGE (VISIBILITY) IS POWER

Our advanced Artificial Intelligence-based data acquisition systems remove the need to guess and put you back in control.

Let our technology end the surprises and put you back in control

More powerful and accurate than offices full of humans, wired on energy drinks, spread the globe, our systems never forget a price or sales location and become more effective for you with every new data point.

Fully Automatable
