

Safety iPass for Cue Health COVID-19 Rapid Test

# Testing Registration Guidance

Staff

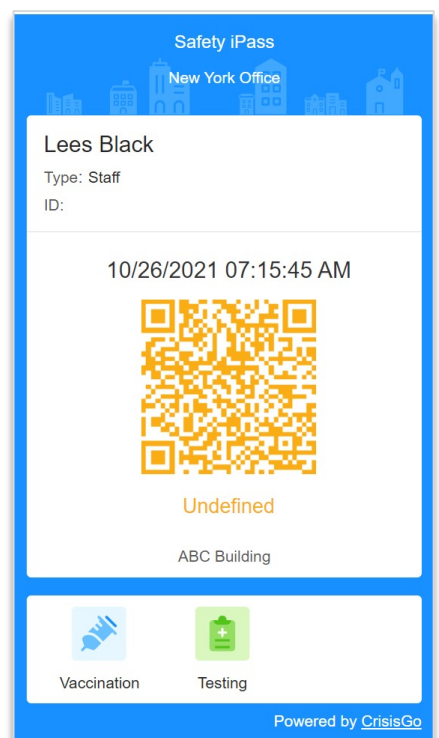

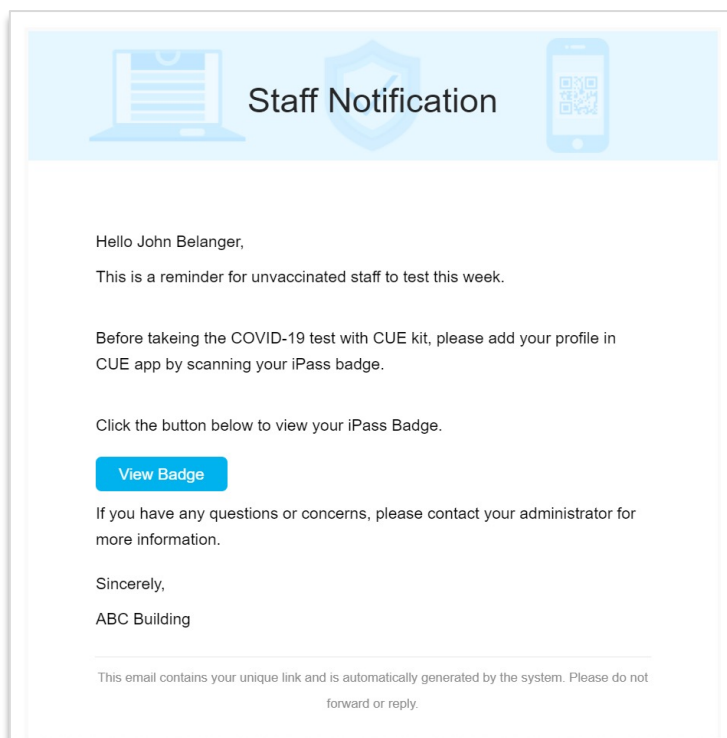

Powered By CrisisGo

Before taking a Cue Health COVID-19 test, you are required to add/change your profile in the Cue Health app by scanning your iPass Badge. Follow the steps below to complete the process:

## Step 1: Get your iPass Badge

You will receive an email notification sent through the Safety iPass system. The link of your iPass badge is provided in the email. Click the “View Badge” button and save the badge.

## Step 2: Add/Change Profile in the Cue Health app by scanning the iPass Badge

Log in to the Cue Health app, select your profile, click **CHANGE**, click the scanner icon to scan your iPass Badge, and save.

With this setting, your test results will be automatically delivered to your organization's test result system.
