MAKING THE WORLD MORE EFFICIENT

## FRACTIONAL HORSEPOWER DRIVES

For more than 50 years, design engineers around the world have relied on Torque Transmission mechanical drive components to solve their fractional horsepower applications. Why? They know that Torque Transmission can meet their specific design requirements ... often with an off-the-shelf solution. And when we can't, we can customize it to their specifications.

Our customers call upon us for our expertise and experience in the drive design process. They know working with us early on produces results.

“ At Torque Transmission, our philosophy is simple: Provide our customers with the highest quality products delivered right the first time, on time, every time. ”

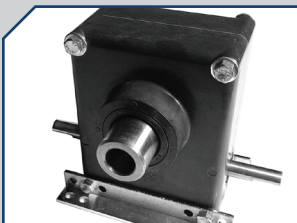

– John N. Rampe, CEO  
Torque Transmission

### PULLEY LINE

Timing Pulleys XL, L, 3mm, 5mm, 8mm HTD, 2MR, 3MR, 5MR PGGT2

Variable- Speed Pulleys, Sprockets,  
1/4" V-Belt/Round Belt Pulleys

### GEAR BOX LINE

- Right-Angle Worm Gear Speed Reducers
- 1/3 HP Right Angle Miter Gear Drive
- 1/8 HP Right-Angle Helical Gear Drive

### THRUST BEARING LINE

- Inch: 1/8 ID to 5.0" ID
- Metric: 4mm ID to 28mm ID
- Carbon or Stainless Steel
